## GREAT GOBS OF GOLD

### Miners Guard Barred City

#### Giants Declared to Underground Realm

##### Tell of Tunnel Miles Long Leading to Fabulous Town

San Francisco, Sept. 11. (Exclusive)—The prospectors slipped out of the mine in a battered old car, and the story that began to tell of the discovery of a vast deposit of gold and silver in the mountains of California. It has been said that the mine is a mile long and leads to a fabulous town. The mine is said to be a mile long and leads to a fabulous town. The mine is said to be a mile long and leads to a fabulous town.

## KEY TO LIFE

### Science Peeping in Death's Portal

#### British Savants Hear Words of Donnan Giving Clew to Essence of Being

##### Oxidation of Cells to Keep Them Up Like Batteries Called One Secret

###### GLASGOW (Scotland) Sept. 11. (Exclusive)—Science is on the verge of discovery of the difference between life and death. Prof. Frederick G. Donnan told members of the British Association for the Advancement of Science tonight.

###### "At the very gate between life and death the English physiologist, A. V. Hill, is on the eve of a discovery of astounding importance, if indeed he has not already made it," said the lecturer. "It appears from his work that the organized structure of nerve cells requires oxygen, and therefore oxidation, to preserve it. This organization is always tending to run down and to approach disorganization."

###### DIFFERENCE SHOWN

###### "The life machine is therefore totally unlike ordinary mechanical machinery. The living cell is like a battery which is constantly running down and requires constant oxidation to keep it charged. I believe these results are of enormous importance. For the first time in the history of science we begin, perhaps as yet a little dimly, to understand the difference between life and death and therefore the very meaning of life itself."

###### "Life is a dynamic molecular organization kept going and preserved by oxygen and oxidation. Death is a natural breakdown of this structure, always present and only retarded by the structure preserving its action of oxidation," Prof. Donnan said. "The living cell contains within itself the seeds of death, called autolytic enzymes, which are capable of hydrolyzing and breaking up the protein components of the protoplasm of the cell. As long as the cell lives these enzymes do not act."

###### WORKING TOGETHER

###### "The living being is a dynamically organized individual, all parts of which work harmoniously together for the well-being of the whole organism. The whole appears to us something essentially greater than the sum total of its parts. We may learn how the nervous system serves to organize and unite the varied activities of this complex multicellular animal."

###### "We may learn how chemical substances are secreted by ductless glands, and act as a powerful means of regulating and controlling the growth and activities of various organs and tissues."

###### "Nevertheless, in spite of these great discoveries, the harmonious and dynamic conditions of the various organs ever confront us as the great mystery of life."

###### The professor added that "science truly understood is not death, but is the birth of mystery, awe and reverence." He paid tribute to the work of several American scientists in developing study of cellular structure.

###### LOCO-POCO PARTY

###### The organization of the so-called loco-poco party in 1835 was an interesting illustration of the trickery of Tammany.

###### There was a caucus at which Tammany attempted to jam through a slate which was opposed by the Equal Rights or Workingmen's party.

###### Since the introduction of the "combine" the "combine" has been the mainstay of the Tammany machine.

###### Since the introduction of the "combine" the "combine" has been the mainstay of the Tammany machine.

###### Since the introduction of the "combine" the "combine" has been the mainstay of the Tammany machine.

###### Since the introduction of the "combine" the "combine" has been the mainstay of the Tammany machine.

## THE STORY OF TAMMANY

### BY EDWARD C. KRAUSS

#### (Continued)

##### Close on the heels of the first grafting by Tammany officeholders came the first Tammany exploitation of the unfortunate. Collections from dives, gambling houses, women of the streets, prisoners in the Tombs and in the police courts were estimated at \$600,000 a year in 1838, and, according to an article by Gustavus Myers in the Independent, had been going on for years before that.

###### So, too, had assessments upon officeholders for the campaign fund. A committee appointed by Congress in 1838 to investigate defalcations by Samuel Swartwout, collector of Port of New York, and William Prior, United States Attorney—both Tammany members—discovered that the Tammany tax was 1 to 6 per cent of the salary.

###### "I believe that nearly all the officers of the customhouse, indoors and out, and the clerks were similarly taxed, and generally paid what they were assessed," testified Swartwout's deputy. "It was assessed by the General Committee of Tammany Hall. If the individual did not pay the collector would remark, 'You are not a member of the General Committee.'"

###### HARD TIMES YEARS

###### The '30's were years of hard times in New York and saw the establishment of the Tammany custom of distributing food, clothing and fuel to the poor. Police Justice Bloodgood said that he had seen a lot of the poor people of the city who were suffering from the effects of the depression.

###### Tammany appointed both the magistrates and the police, and these were expected to make use of their offices for the benefit of their own pockets and to make liberal contributions at election time.

###### Investigation by M. R. Werner, an investigator for the Board of Aldermen in the '40's disclosed that prisoners, whose time had expired, were kept in the city prison until election time, when they would be released.

###### There was a caucus at which Tammany attempted to jam through a slate which was opposed by the Equal Rights or Workingmen's party.

###### Since the introduction of the "combine" the "combine" has been the mainstay of the Tammany machine.

## The Very Latest in Neckties!

## RAIN FALLS OVER NORTH, MORE TODAY

### Seasonal Fall Belated, But Now Moves South to Cover Bay District

#### SAN FRANCISCO, Sept. 11. (Exclusive)—Considerably behind schedule, the vanguard of seasonal rains got a foothold in Northern California today, with more on the way. The Weather Bureau reported a disturbance of marked character moving inland from the Gulf of Alaska, centering tonight in British Columbia. It will bring rain before morning to California as far south as the bay. It is predicted.

##### The advance agent deposited 36 of an inch at Eureka. Seasonal rains left the bay 11 of an inch behind normal precipitation at this time of the year.

###### A shower is reported also from Del Monte, but no gauge reading was given.

###### Storm warnings went up for small craft along the Washington and Oregon coasts.

## FIRE PERILS WARD LINER OFF MEXICO

### Sixty-seven Passengers on Board Taken from Ship and Landed in Yucatan

#### MERIDA (Yucatan) Sept. 11. (Exclusive)—Fire broke out aboard the Ward liner Monterey, en route from Vera Cruz to Havana and New York, when it was anchored off the port of Progreso today.

##### Sixty-seven passengers in transit to Havana and New York were transferred to the tug boat Eureka and landed at Progreso. The passengers were later sent to Merida, where they will stay until advised whether they can rejoin the ship to continue their trip.

###### The steamship Monterey is one of the older vessels used by the Ward line. It carries a limited number of passengers in two classes. On its return trip to New York from Mexico it stops at Progreso, Mex., and Havana. The vessel is of 2671 net tonnage and was built in Philadelphia in 1901.

###### UNITED STATES OF AMERICA

###### The three units of the camera outfit consisted of a cabinet containing a twenty-four-hole scanning unit, a 1600-watt lamp, a light source and two smaller cabinets.

## The Trail to Prosperity

### So many men—and women too—are content to plan and prosper for the present with no thought for the success and happiness of the future.

#### Thinking men and women, however, cultivate prosperity and position through reading and using the classified "Business Opportunities" columns of The Times.

##### There the proof of the proposition lies in the profit to be made.

## LICENSEES WIN RADIO TUBE FIGHT

### Court Decides Corporation Demand to Use Product Violates Antitrust Law

#### PHILADELPHIA, Sept. 11. (Exclusive)—The United States Circuit Court of Appeals today decided the clause in the agreements between the Radio Corporation of America with its licensee manufacturers of radio receiving sets, restricting manufacturers to use of RCA radio tubes only in the construction of the apparatus, is in violation of the Clayton anti-trust law.

## BLACK EYES IN TEXAS

### Democrats Have Bloody Fight

#### Hooverites Bolt Convention at Dallas Amid Wild Yells and Swinging Fists

##### Insurgents Organize Also as Regulars Face Struggle Over Dry Platform

###### DALLAS (Tex.) Sept. 11. (Exclusive)—Amid the wildest scenes that ever marked a Democratic meeting in Texas, delegates refusing to endorse the Presidential candidacy of Gov. Smith of New York bolted the State Democratic convention here today and organized a separate convention of their own in the blazing sun on the steps of Fair Park Auditorium, where the regulars met.

###### Many of the State's most prominent political leaders among their ranks in a free-for-all fight that occurred when former Gov. Colquitt, avowed anti-Sabbath, sprang to his feet a few minutes after the convention opened and shouted: "Let all loyal Democrats retire."

###### The regulars later "cordially endorsed" the national party platform and Gov. Smith in their State platform, and in the same document called upon "all officers of the government and all members of the party" to rally for the "destruction of the traffic in alcoholic liquors."

###### The convention has an authorized strength of 843 delegates, but as the delegates pay their own expenses several small delegations from distant counties did not appear. Not more than half of those who left the convention today could qualify as delegates and most of these were contesting delegates who were seated in the convention by the executive committee, which seated Smith supporters in their places.

###### FIGHTS BREAK OUT

###### Eyes were blackened and noses bled as the insurgents, trooping from the hall and arena and shouting "Get out, Republicans," attempted to march standards from delegations of loyalists. Uninformed delegates broke up a half-dozen mobs before order finally was restored and the Hooverites repaired to their meeting place on the front steps.

###### The bolt was precipitated when a motion was introduced demanding that only those delegates loyal to Gov. Smith be seated. The motion was an anticlimax to the action of the State executive committee yesterday when anti-Smith delegations from five counties were notified they would not be seated in the convention. It is a "one session" for insurgents for two days.

###### REGULARS ASSAILED

###### Meeting apart from the regular Democratic group, the Hooverites elected former State Senator Love temporary chairman, named committee and listened to several addresses before adjourning their rump convention and leaving direction of their future activities in the hands of an executive committee headed by Alvin S. Moody of Houston.

###### Both Love and Colquitt addressed the bolters, telling them to go to their homes and "prepare for the fight." A set of resolutions adopted by the Hooverites branded the nomination of Gov. Smith as "an unfortunate error" and called for the "high-handed and lawless methods of the regular convention."

###### The voluntary retirement of the delegates opposed to the Democratic nominee left the loyal forces free to elect officers, frame their platform and attend to routine business without prospect of further interruptions. Before adjourning for noon recess the regulars heard an address by Myron Bialock, temporary chairman, and appointed committee on resolutions and platform.

###### The committee on permanent organization prepared the following list of permanent officers:

###### W. A. Taver, Corcoran, chairman; Mrs. Lee J. Rountree, Bryan, vice-president; Margie Neal, Carthage, secretary; C. C. Renfro, Dallas, and Ernest W. Fort Worth, assistant secretaries; Ranger Cap.

###### (Continued on Page 2, Column 4)

## PERMIT FOR COLORADO WEIR GIVEN

### Imperial District Granted Authorization to Rebuild Dam at Hanlon's Heading

#### WASHINGTON, Sept. 11. (Exclusive)—The acting Secretary of War has approved the application made by the Imperial Irrigation District of California for permission to repair and rebuild its temporary diversion dam or weir in the Colorado River near Hanlon's Heading and to maintain the same until July 1, 1929.

##### This work is essential to the existence of a large and prosperous farming community and will be of general benefit under proper safeguards against contributing to the flood risks of the adjacent areas.

###### There is no present or prospective navigation on this section of the river and the proposed work will not materially affect any future improvement of the river.

## Calles Cabinet Aide Reported to Have Quit

### MEXICO CITY, Sept. 11. (Exclusive)—The newspapers tonight report that Ramon Ortega, Attorney-General in the Calles government since December, 1925, has resigned, and that the President has accepted the resignation.

#### No confirmation could be obtained at the offices of either and no reason for the resignation could be learned.

##### ALBANIANS VOTE CONFIDENCE

###### TIRANA (Albania) Sept. 11. (Exclusive)—Parliament last night unanimously voted confidence in the new Cabinet headed by Premier Cotta.

## VICTORY TO ASHURST

### Wins Arizona Nomination

#### Incumbent Senator Holds Lead Over Rutherford; Cameron Ahead

##### Gov. Hunt Well Ahead of Gubernatorial Race in Partial Count

###### PHOENIX (Ariz.) Sept. 11. (Exclusive)—Eighty-three complete and 101 incomplete precincts out of 508 in the State at midnight tonight practically assured the nomination of Senator Ashurst, Democrat, and Ralph H. Cameron, Republican, for United States Senator, and Gov. Hunt, Democrat, and Judge John C. Phillips, Republican, for Governor.

###### The vote for Senator at that hour was: Ashurst (Democrat) 5728; Rutherford (Democrat) 1760; Cameron (Republican) 1228, and Stewart (Republican) 1961.

###### In the gubernatorial contest, the vote was: Hunt (Democrat) 7090; Kerby (Democrat) 4735; Phillips (Republican) 3619; Ullal (Republican) 2124, and Stoddard (Republican) 1382.

###### The nomination of Gov. Hunt means that he will be the Democratic gubernatorial standard bearer for the eighth time since Statehood. Six times in his previous seven starts he has been elected. His only defeat was at the hands of Thomas E. Campbell, Republican, in 1914.

###### WHITE FEAR AHEAD IN COLORADO COUNT

###### DENVER, Sept. 11. (Exclusive)—With the vote from seventy-five of the First District's (Denver county) 281 precincts tabulated at midnight, the Democratic White "wet" candidate seeking the Democratic nomination to succeed himself had amassed what appeared to be an overwhelming lead over Clarence J. Kindel, former Congressman, running by petition. The vote in approximately one-fourth of the city was: White, 2689; Kindel, 729.

###### In the three-cornered Republican race for the right to oppose Congressman White, William R. Bacon, former State Senator, and a slight lead over his two opponents in the tabulation from seventy-five precincts. At that time the vote stood: Bacon, 1688; Wood, 1441; Hubert L. Shattuck, 1397.

###### HEAVY VOTE RECORDED FOR WASHINGTON OFFICES

###### SEATTLE, Sept. 11. (Exclusive)—Washington voters in unprecedented numbers flocked to the polls in the State primary election today. The nominations at stake involved one seat in the United States Senate, five seats in the lower house of Congress, all elective State offices, four positions on the State Supreme Court bench, twenty-one seats in the State Senate, the entire House of Representatives in the State Legislature, and a number of county offices.

###### Threatening weather in Western Washington did not deter the citizens, the early vote being especially heavy in the residential districts, where women formed a large percentage of the total. Eastern Washington was favored with more favorable atmospheric conditions. Local issues in a number of precincts heightened the general interest aroused by the fierce campaign waged by candidates for the elective State offices.

###### Reports from virtually all sections of the State indicated that there are about five Republican ballots received for every Democratic ballot voted, although in some precincts the ratio of the Democratic vote was slightly higher.

###### CONGRESS INCUMBENTS VICTORIES IN NEW ORLEANS

###### NEW ORLEANS, Sept. 11. (Exclusive)—Representative James O'Connor stood far ahead of his opponent, J. A. Brulard of New Orleans, on complete returns from St. Bernard parish and from two precincts in the city.

###### (Continued on Page 2, Column 4)

## LEVINE OUT OF AIR DERBY

### Columbia Crew Quits, Leaving Only Eight Flyers to Start for Mines Field in Nonstop Race

#### ROOSEVELT FIELD, NEW YORK, Sept. 11. (Exclusive)—The confusion and turmoil that have featured every long flight with which Charles A. Levine has been associated were injected into the final arrangements for the nonstop transatlantic air derby tonight when Levine's new crew withdrew to make a trans-Atlantic flight.

##### Levine's trans-Atlantic monoplane Columbia was one of the first entries in the race, Levine arranging from abroad to have the ship flown by Lieut. Jack Isaman, commandant of the Rockaway Naval Air Station.

###### But when Levine arrived back in America yesterday he began to rearrange his flight personnel. He announced that Roger Q. Williams would be chief pilot instead of Isaman, having decided not to participate in the projected flight to Rome with Cesare Sabelli. Peter Bonelli, another of Sabelli's crew, also cut loose from that venture and it was intimated that he too might fly in the Columbia.

###### ONLY EIGHT MAY START

###### Late today, however, Williams and Bonelli suddenly announced that they had decided to go with Sabelli and all would leave at once for Hartford, Ct. This left Levine with only Lieut. Isaman and there is a general belief that the Columbia will be scratched.

###### If the Columbia is withdrawn, there will be only eight planes in the race, instead of the twelve originally entered. Of these eight four will be "in the money," which amounts to \$22,250 in prize money.

###### Levine said tonight that Williams had not notified him that he is not to fly the monoplane Columbia in tomorrow's nonstop race. Levine said he will be unable to make the flight himself because of business, but that if unfavorable weather held the flight up for a day or so, he might be able to go.

###### The flyers are allowed, under the rules, to take off any time after 9 o'clock in the morning, but indications are today that most of them will make the start between noon and 2 o'clock in the afternoon.

###### LIST OF ENTRIES

###### The complete list of entries, giving race number, first and departure time, is as follows:

###### (Continued on Page 3, Column 1)

# ARMY SURGEON DENIES THEORY OF FLYING CURING DEAFNESS

WASHINGTON, Sept. 11. (Exclusive)—Commenting on the impression which seems to be rather widely spread and persistent that airplane flights tend to cure deafness, Lieut.-Col. Levy M. Hathaway, Medical Corps, chief of the office of the medical section, office of the chief of Air Corps, stated that the impression is quite erroneous and contrary to actual fact, the truth being that deafness is caused and aggravated by flying.

Col. Hathaway's remarks were prompted by the report of the recent airplane accident at Springfield, Mass., in which three persons were killed when a plane, making a loop in the attempt to cure the deafness of a child passenger, collapsed and crashed to the ground. Touching on the actual effect of flying on airmen, Col. Hathaway stated that defective hearing is common among aviators and generally is considered occupational. Many flyers are slightly deaf, though not noticeably so, except when tested for hearing. Deafness tends to progress in flyers. The roar of a 400-horsepower engine is terrific, drowning all conversation and necessitating communication by signals. This noise, together with the rapidly changing atmospheric pressure on the delicate structures of the auditory apparatus, soon dulls the sense of hearing. These effects are cumulative and become permanent with continual exposure to the cause.

OAKLAND, Sept. 11. (Exclusive)—At 22 months of age, Muriel Aschen can speak 300 words distinctly, according to her parents, Mr. and Mrs. W. A. Aschen. She could speak twenty-five words at the age of 1 year, they say.

# LAND BUYING CLASH NEAR IN BAY CITY

Supervisor Says He Will Make Revelations That Will Rock San Francisco

SAN FRANCISCO, Sept. 11. (Exclusive)—First rumblings of a new civic scandal were heard today on the floor of the Board of Supervisors, when Supervisor Gallagher said he intends to set off "a charge of dynamite" among his colleagues Thursday over the manner in which land purchases are being made in the Sunset district for the projected new scenic Sunset Boulevard, a complete block in width, north and south across the sand dunes.

# MEXICANS ORGANIZE FOR TRADE

Company Aims at Better Marketing of Vegetables from West Coast

# NOGALLES (Ariz.) Sept. 11. (Exclusive)—The Pacific Growers Company is an organization effected at Los Mochis, Son., in July, designed to bring system and business methods into the shipment of vegetables from the Mexican west coast.

HOOVER WILL  
MEET COOLIDGE  
President and Candidate to  
Hold Conference  
Nominee Withholds Views  
on Maine Vote  
Executive Will be Asked for  
New England Talks  
BY ROBERT B. ARMSTRONG  
"Times" Staff Correspondent  
WASHINGTON, Sept. 11. (Ex-  
clusive)—Herbert Hoover, Repub-  
lican candidate for President, ac-  
companied by Mrs. Hoover, will wel-  
come President and Mrs. Coolidge  
when they return tomorrow morn-  
ing. The Presidential special will  
arrive at 8:30 a.m. and the Presi-  
dent and Mrs. Coolidge will go im-  
mediately to the White House.  
As soon as President Coolidge can  
arrange it, he will confer with Mr.  
Hoover and Chairman Work of the  
Republican National Committee as  
to his personal participation in the  
Hoover-Curtis campaign in New En-  
gland.  
President Coolidge contemplates a  
trip to Andover, Mass., and Ply-  
mouth, Vt., within a week or ten  
days of his return here and will be  
urged to make at least three  
speeches, one in Plymouth, one in  
Andover, Mass., and the most im-  
portant one in Boston at night with  
a national broadcasting hook-up.  
TEXTS PROPOSED  
He will be urged to set forth the  
accomplishments of the Republican  
administration since 1920 on the  
protective tariff, more universal  
security and prosperity for the United  
States and the great accomplish-  
ments for world peace since March  
4, 1920.  
It now seems certain that Presi-  
dent Coolidge will get into the cam-  
paign in his own way and time and  
use every effort to gain a tremen-  
dous national vote for the Hoover-  
Curtis ticket.  
Mr. Hoover and his advisers be-  
lieve that President Coolidge will  
accept the New England program in  
full especially in view of the tre-  
mendous landslide achieved by the  
Republican party in Maine yester-  
day.  
Mr. Hoover in his press conference  
today declined to be quoted on the  
Maine vote but told some of his  
callers that he was greatly gratified  
at the large and unusual Republi-  
can majority.  
Mr. Hoover left the comment to  
Chairman Work and Senator Curtis,  
his running-mate on the ticket.  
Mr. Hoover plans on his speaking  
trips to go by the most direct route  
to the place at which each address  
is to be delivered and to return the  
same way.

Citrus Land  
Our area—north of S. P. Coast line, between Zelzah  
and Chatsworth—is comparatively frostless. There is very  
little scale.  
It has been our experience that no product of the  
nursery has to be fumigated here.  
Valencias do well. They have the market to them-  
selves—when navels are out.  
There are oranges on three sides of us and a citrus  
packing plant near by.  
We have 210 acres—use 60 for our lath houses and  
floriculture—and will sell 150 that we do not need, 1320  
feet on S. P. Coast line track.  
Deep, rich, well-drained, alluvial soil. Abundance of  
cheap water.  
Alfalfa, Baby Lima beans, Kadots figs, Valencia or-  
anges, deciduous fruits, walnuts, vegetables, flowers, pou-  
try and dairy are all adapted to this land and climate.  
Land, location and climate desirable for suburban re-  
sidence. Quick run to State University via Beverly Glen  
and to ocean via Topanga. When ocean transit comes  
on S. P. tracks will have fast time to downtown district.  
The land will increase in value rapidly.  
We also have another 8 acres on "T" track at Chats-  
worth. Good for industry.  
Shall be pleased to have your inquiry. Courtesy to  
agents.

LIQUOR ISSUE  
TERMED FOG  
Requa Says Prohibition Not  
Pertinent  
Cites Twenty-one States Dry  
Before Amendment  
Declares South Will Balk  
Law Changes  
SAN FRANCISCO, Sept. 11. (Ex-  
clusive)—Democratic campaign  
managers are fogging the real issue  
of consequence to voters in the  
Presidential campaign by insisting  
that it is prohibition, according to  
information at Republican head-  
quarters today.  
Mark L. Requa, executive director  
of the California campaign, de-  
clared, "Everyone should know that  
it takes only thirteen of the States  
to keep the Eighteenth Amend-  
ment in the Constitution. Everyone  
also should know by this time that  
Gov. Smith notwithstanding, there  
will be at least thirteen Southern  
States which would block a radical  
change in the prohibition laws."  
REAL INTEREST CITED  
Quoting Congressman Tilton of  
Connecticut, chairman of the east-  
ern speakers' bureau of the Re-  
publican campaign to the effect that  
"the voters' real interest lies in the  
records, achievements and char-  
acters of Herbert Hoover and Sen-  
ator Charles Curtis," Requa released  
a compilation showing that no less  
than twenty-one States of the Union  
had gone dry by choice prior to  
enactment of the Eighteenth  
Amendment.  
Those States which were dry be-  
fore national-wide prohibition became  
effective and the years in which the  
action was taken, were:  
Alabama, 1915; Arizona, 1915; Ar-  
kansas, 1915; Colorado, 1916; Flor-  
ida, 1916; Georgia, 1908; Idaho,  
1916; Kansas, 1909; Maine, 1851;  
Michigan, 1915; Mississippi, 1908;  
Montana, 1915; Nebraska, 1917; New  
Hampshire, 1918; New Mexico, 1918;  
North Carolina, 1909; North Da-  
kota, 1889; Ohio, 1919; Oklahoma,  
1907; Oregon, 1933; South Carolina,  
1916; South Dakota, 1917; Tennes-  
see, 1909; Texas, 1916; Utah, 1919;  
Virginia, 1916; Washington, 1916;  
West Virginia, 1914.  
AREA IN OTHER STATES

War Veteran of  
Sawtelle Killed  
in Utah Crash  
HEBER (Utah) Sept. 11. (AP)—John  
C. Lockwood, 71-year-old Civil War  
veteran who has been living at the  
Soldiers' Home at Sawtelle, died  
here today of injuries received in an  
automobile accident yesterday.  
Lockwood was driving east on the  
highway near here when his ma-  
chine collided with a car bearing a  
Colorado license and plunged down  
into a gully at the side of the road.  
The other automobile did not stop.  
The motorist, attracted by cries,  
found the aged veteran in the  
wreckage of his car.  
Papers in his pockets indicated  
his niece, Gertrude Posker, lives at  
Amarillo, Tex.

Akron Airship  
Rides Out Wind  
With Difficulty  
DETROIT, Sept. 11. (AP)—The  
semirigid dirigible "Puritan" owned  
by the Goodyear Tire and Rubber  
Company of Akron, O., was safely  
moored at the Ford Airport here  
tonight after riding out a terrific  
wind and rainstorm that broke as  
the ship approached the city.  
The ship was tossed about by the  
wind for thirty-five minutes, com-  
pletely turning over once. The  
storm suddenly lifted and the Pur-  
itan was able to make its way to  
the airport.  
American Chic  
to Split Stock  
NEW YORK, Sept. 11. (Exclu-  
sive)—Directors of the American  
Chicle Company at a meeting held to-  
day voted to split the common stock  
in the ratio of two shares for each  
share now held. There are 186-  
886 shares of common stock now  
outstanding. A special meeting of  
stockholders has been called for  
October 15 to act on the proposal.  
Directors voted to reduce the par  
value of the common stock from  
\$20 to \$10. The new stock, if ap-  
proved by stockholders, will be  
placed on a \$2 annual dividend ba-  
sis. Directors also proposed to  
amend the by-laws and eliminate  
the present outstanding 1201 shares  
of 6 per cent preferred stock.  
Chicago Bombing  
Fever Spreading  
KENOSHA (Wis.) Sept. 11. (AP)—  
The spasm of bombing which here-  
tofore has been Chicago's has spread  
northward to Kenosha. Another  
bombing last night damaged the  
home of Alfred Gemmell, whose re-  
mote connection with the Allen A.  
knitting mills labor trouble lies in  
the fact that his brother, William,  
who lives with him, is now employed  
at the mills.  
The bomb was the fourteenth to  
be tossed since the labor troubles  
started several months ago.

MIRAMAR ESTATES  
One of the last fine residential  
properties along the ocean  
OWNING A HOME  
Overlooking the ocean must  
forever be the privilege of only the  
limited few. Even now looms the  
inevitable day when desirable ocean-  
view homesites will simply vanish  
from the market.  
One of the last opportunities to pre-  
serve such a spot for yourself, your  
children, and your children's chil-  
dren, is offered in Miramar Estates.  
Here... within the city limits of Los  
Angeles... is all you could wish to  
make life full and rich; healthful  
surroundings, picturesque environs,  
charming neighbors... in short, the  
ideal community in which to per-  
petuate a home.  
On Beverly Boulevard where this beautiful  
highway meets Santa Monica Bay.  
From 200 to 700 feet above the sea, and far  
enough from the ocean to remove the glare.  
Mild, even temperature. In summer deligh-  
ful, in winter a revelation. Above the sand  
and valley fogs.  
The vast Pacific ocean at its front door.  
Bounded by Calabazas de los Llanos and San  
Ynez, the two most picturesque canyons in  
California.  
A majestic range of mountains at its back-  
ground.  
ESTATE NO. 18, with 1974-foot frontage, affords  
a superb view of the ocean, the canyons, and green-clad  
hills. \$15,000. To reach Miramar Estates: drive out Ber-  
evly Boulevard to the entrance, 500 feet from the ocean

## KNOCK'S FAMILY TREE UNTRACED

Lineage of Auto Owner's  
Bane Kept Secret

Ancestry of Engine 'Pinking'  
Eludes Scientists

Radiation of Flames Seen  
as Vital Study

SWAMPSCOTT (Mass.) Sept. 11. (P)—Science has yet to solve the mystery that hinders every automobile owner when he hears a fast knock in the engine and wonders at the cause. This was the report made today by two English scientists at an international symposium of the divisions of gas and fuel chemistry of the American Chemical Society.

In an effort to ascertain the cause of the "pinking" or knocking of motor fuels, G. B. Maxwell and

## ORPHANS MARCH IN FIRE DRILL ONLY TO FIND BLAZE REAL ONE

OAKLAND, Sept. 11. (Exclusive)—Life is just one fire drill after another for the 300 children at the West Oakland Orphanage. Hence, no one got excited when the fire

G. V. Wheeler of the department of fuel technology, Sheffield University, England, made a photographic study of the movement of flames simultaneously with measurements of the development of pressure during the explosion of the charge in an engine cylinder.

"Pinking," "knocking," or "detonation" as it is variously called, has come to be a serious problem to the fuel producer," they reported. "Intensive research has led to improvements in the design of engines and the blending and 'doping' of fuels, but the cause of the trouble is still not clear."

Prof. George Oranger Brown of the University of Michigan, in opening the discussion, said that a large part of the symposium would be devoted to papers on the mechanism of combustion and autoignition temperature of fuels in an at-

tempt to find the true cause of engine detonation, the importance of which can hardly be overestimated.

All human and animal existence depends upon combustion as its source of energy," he said. "The first real progress man has made in his ascent or descent from the apathetic primitive state depended on his control of fire or combustion, and in many ways our further progress depends upon more intelligent and efficient control of combustion."

DEMOCRATS NAME COMMITTEE  
HARTFORD, Sept. 11.—At an organization meeting this afternoon the Kings County Democratic Committee elected Charles King of this city chairman; A. O. McClellan, Coconino, vice-chairman, and A. D. Driver, Hartford, secretary-treasurer. The committee made plans for immediately initiating an active and intensive campaign for the November election.

HATTIE SILVA GUNTT  
OBERON, Sept. 11.—Hattie Silva, found guilty of possession of intoxicating liquor, was today sentenced by City Judge J. E. Woods to pay \$500 fine or 300 days in the County Jail.

## RAJAH MUST GO TO COURT WITH WOMAN

Ruler Who Wed American  
Girl Denied Plea Made to  
Bombay Tribunal

BOMBAY (India) Sept. 11. (P)—An appeal filed by Sir Tukoji Rao, former Maharajah of Indore, against the jurisdiction of the Bombay High Court in the suit for 104,000 rupees (about \$60,000) damages filed against him by a woman was dismissed today.

The woman, Sowkabal Pandarion Rajpurkar, charges the former ruler with luring her to his residence, attempting to gain her daughter as his mistress, imprisoning them both for eleven years and despoiling her residence of furniture and jewelry. Sir Tukoji Rao is believed to be in Europe at present with his American wife, the former Maharajah's daughter. He is believed to have put in an appearance in defense of the suit. They also called attention to the suggestion that he had been sentenced from the Indore government in defending the suit.

Parachutes must be made of strong material, elaborately seamed together.

## MORE STATIONS GIVEN POSITIONS

Two Hundred Placed on  
Regional Channels

Will Enjoy Freedom from  
Interference

Reallocation Plan Benefits  
Radio Reception

WASHINGTON, Sept. 11. (Exclusive)—More than 200 stations have been placed on the thirty-five regional channels set aside by the Federal Radio Commission for interference-free broadcasting under its newly announced reallocation plan.

In their importance to the radio public, assignments on these channels are second only to those on the forty cleared for high-power broadcasting. The engineers of the radio commission are convinced that the regional and the cleared channels will insure clear reception on at least seventy-five out of the ninety available wave lengths when the reallocation goes into effect November 11.

Returned—Dr. Blanche Weaver, from women's studies in Europe. 608 Story Bldg. TU. 2628.—(Advertising)

## POSTURE

THE LEADING automobile manufacturers of the world are today spending millions of dollars on the re-designing of seats and steering mechanism in their products, to eliminate the strain of driving. Seats are being shaped to the natural lines of the body—steering mechanism is being adjusted to the needs of the driver, allowing relaxation and enjoyment in motoring.

IT IS ABSOLUTELY impossible to relax, either sitting or lying down, if the body is not properly supported and held in a perfectly natural position.

## Barker Bros.' "Own Make"

SCIENTIFIC box springs and mattresses follow every natural line of the body, giving support where it is needed, but not allowing this pressure to cause unnecessary strain on the nerve centers. This encourages complete relaxation and rest.

BARKER BROS. are recognized headquarters for scientific sleeping equipment. Years of careful study have perfected mattresses and box springs to serve your personal needs. Health, weight, age and even occupation are considered.

100% STRICT middling cotton mattresses guaranteed against becoming hard. Hand-tailored, with or without tufts. Positive non-spread feature. Full size.

**\$33.50 to \$37.50**  
(Twin size less)

100% STRICT middling cotton pillow for box springs. Always remains soft.

**\$27 to \$35**  
(Twin size less)

HIGH-GRADE choice felted lintens mattresses, good art drill ticking and splendid tailoring.

**\$12.50 to \$19.50**

Other clean lintens mattresses priced as low as \$8.00

ECLIPSE inner spring mattress, 266 springs, burlap pockets. Heavy woven art sateen ticking. A challenge for comparison with any other spring mattress under \$40.

Full size, special **\$26.75**  
(Twin size, \$24.75)

SUPER LUXURY inner spring mattresses. All springs—burlap pockets sewn one to the other at every spring. Overlaid top and bottom with 100% strict middling cotton. Completely hand-tailored, guaranteed not to become hard. Full size

**\$41.50**

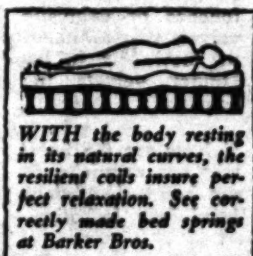

(Twin size, \$38.50)

HERE you see the cramped position of the body, caused by a sagging spring, resulting in an unnatural tension on thousands of nerves.

**MAINE TOTALS  
AMAZE CURTIS**

Chairman Work Pleased by  
80,000 Majority

Sees Republican Landslide  
in November Vote

Declares Contest Fought on  
National Lines

WASHINGTON, Sept. 11. (Exclu-  
sive)—Senator Curtis, Republican  
candidate for Vice-President, today  
made the following comment on  
the Maine election:

"The result of the State election  
in Maine is most gratifying. We  
had expected a decisive Republican  
victory there, but the overwhelming  
majority given the entire State  
ticket is indicative of what can be  
expected in November from the  
entire country."

Commenting on the Maine result  
Chairman Work of the Republican  
National Committee said:

"Maine again has pointed the  
way."

"We anticipated a handsome ma-  
jority in Maine; the results far  
exceeded our expectations. They  
foreshadow an overwhelming ma-  
jority for Hoover and Curtis in  
November."

**MAJORITY SIGNIFICANT**

"The flattering majority in Maine  
has an unusual significance this  
year because the contest from the  
very first has assumed a national  
aspect in which every national issue  
was stressed by both sides."

"The Maine returns are doubly  
gratifying because the campaign  
was waged largely on national is-  
sues and on the record and achieve-  
ments of the Coolidge administra-  
tion and Republican Congress and  
the merits and appeal of the Hoov-  
er-Curtis ticket. The 80,000 Sep-  
tember majority is a record-breaker  
for the Pine Tree State; it leaves  
no doubt that the voters are satis-  
fied with the Republican party  
and determined to see that it is  
continued in control of the govern-  
ment."

"The conduct of the Federal gov-  
ernment, the prosperity of the  
country, the platform of the Kan-  
sas City and Houston conventions  
and the comparative fitness of the  
Republican and Democratic Presi-  
dential candidates were all discussed  
and analyzed as never before in the  
September elections. Maine, the  
home of protective tariff, is still  
for protection. The result reveals  
the present trend of the American  
political mind and indicates that  
our people are not only thoroughly  
informed as to the facts but as  
sound as ever in their judgment.  
It all points inevitably to a sim-  
ilar national result in November."

**GARDINER MAKES GAIN**

"In 1924 Maine elected a Repub-  
lican Governor by a majority of  
38,000; two years later, an off-year,  
we elected a Governor by 20,000;  
this year Gov. Gardiner is elected  
by a majority of better than 80,000;  
his majority increases as the count  
progresses."

"Maine reflects a condition which  
I am confident prevails the country  
over; it indicates a dwindling Demo-  
cratic vote. Four years ago at the  
State election 108,638 Democrats  
voted for their party candidate for  
Governor; in 1926 the number fell  
to 80,748 and this year the total  
dropped to around 65,000; there is a  
reason. It is fair to conclude that  
many gave their support to the Re-  
publican ticket."

"While Maine yesterday elected a  
Governor and State ticket, a Sen-  
ator and four Representatives, the  
contest was waged largely on na-  
tional issues. Arguments that were  
made in Maine will be made in oth-  
er States this fall. Every Repub-  
lican candidate in Maine pledged  
his support to Hoover and Curtis;  
each and every one stood by the  
national ticket while making his  
own fight; national issues were  
paramount. The record of the Cool-  
idge administration and the  
achievements of the Republican  
Congress were everywhere stressed

**FILIPINOS INVITE CAPITAL**

Secretary of Agriculture for Islands Urges Farmers  
to Seek Outside Financing

MANILA, Sept. 11. (AP)—Speaking before the Philippine Agriculture  
Congress, Rafael R. Alanan, newly appointed secretary of agriculture,  
today urged farmers to do everything possible to bring outside capital,  
preferably American, to the Philippines. He did not suggest liberaliza-  
tion of existing laws relating to that subject, however. He urged that  
the farmers organize and that all land holdings be provided with legal  
titles.

"It is useless," said Alanan, "to  
talk of establishing agricultural  
banks and rural credit association  
with local capital. . . . The lit-  
tle capital that is here is obtain-  
able at a price too high to benefit  
the farmer. We must not  
fear foreign capital just because it  
is foreign, but rather the form in  
which it comes and is invested."

Ruperto Monticola, president of  
the congress, and Insular Repre-  
sentative Isidro Vamenta voiced op-  
position to liberalization of the land  
laws. Vamenta argued against lib-  
eralization on the ground that it  
would hinder the fight for inde-  
pendence.

While the agricultural body was  
in session Jorge Bocobo, dean of the  
college of law of the University of  
the Philippines, appeared at a pub-  
lic hearing before the House of  
Representatives and voiced vigorous  
opposition to liberalization of the  
corporation laws. He declared that  
in "subject" countries such as the  
Philippines economic development  
on a large and rapid scale is dan-  
gerous because "imperialistic capi-  
tal" cannot be controlled by the  
force of government nor by public  
opinion as in the United States. He  
advocated a continuance of the  
present policy of protectionism.

Pointing out that proposed  
amendments to present laws will  
permit the formation of holding  
companies, he declared that a hold-  
ing company is one of monopoly,  
absorption and control.

publican in September will be even  
stronger in November. In 1924,  
when Maine went Republican by  
36,000; in September it rolled up a  
Republican majority of 85,004 over  
all in November, in a year when  
there was a third-party ticket in the  
field.

"Mr. Hoover and what he stands  
for and Mr. Curtis and for what he  
advocates are unquestionably popu-  
lar in Maine; the results show it."

"I want to commend the local  
Republican managers in Maine for  
their splendid achievement."

**BANDITS ROB EXPRESS**

**SOUTH BEND (Ind.) Sept. 11.** (AP)  
Four bandits held up an American  
Railway Express truck today and  
escaped with \$9018 in silver and  
currency.

"These figures tell the story. The  
Republican majority this year is  
more than double what it was four  
years ago; it is four times what it  
was in 1926."

"A State so overwhelmingly Re-

**Luxuries  
and  
Safety Features obtainable  
only in Cadillac or La Salle**

(1) New Cadillac-LaSalle Synchro-Mesh Silent-Shift  
Transmission. Noiseless. Non-clashing. Makes traffic  
getaway instantaneous. (2) New Cadillac-LaSalle Duplex  
Mechanical System of Effortless Four Wheel Brakes, the  
most scientific, costly and efficient ever developed. (3)  
Security-Plate Glass removes all hazard of flying glass  
fragments. (4) New adjustable front seats—brake and  
clutch pedals are within easy, comfortable reach of any  
driver. (5) Principles of pneumatic control engineered in  
chassis and body construction to assure maximum quiet-  
ness. (6) Chromium Plating, the new metallurgical  
treatment that preserves indefinitely the original luster of  
exposed nickel parts. (7) The famous 90-degree, V-Type,  
8-Cylinder engine—made quieter, smoother and more  
powerful than ever. (8) New modernity in finish and  
appointment.

You must take the wheel of a new Cadillac or LaSalle to  
understand and appreciate these extraordinary new  
engineering and manufacturing refinements. A tele-  
phone call to the nearest Cadillac-LaSalle dealer will  
bring a demonstrator to your door.

The new LaSalle is priced from  
\$2295 to \$3875, the new Cadillac  
from \$2395 to \$7000, all prices f. o. b.  
Detroit. The General Motors time  
payment plan is a convenient way  
for you to enjoy all that Cadillac  
and LaSalle offer, while you pay for  
the cars out of income.

**"Not a cough in a Film-ful"**  
says Norma Talmadge  
after the Blindfold test

"When you see my new United Artists'  
picture, 'The Woman Disputed,' you will  
notice that I smoke cigarettes in several  
scenes.

"Not wanting to show partiality to any  
one of the four leading brands, I decided  
to make my choice via the blindfold test,  
which I had heard of many times. Happi-  
ly, I picked OLD GOLDS.

"I found them smooth, mild and de-  
lightfully cool.

"Hereafter, when I am required to smoke  
I shall naturally insist on OLD GOLDS.  
There's not a cough in a film-ful!"

*Norma Talmadge*

**Old Gold CIGARETTES**

THE INCOMPARABLE NORMA . . . one of the best loved ac-  
tresses in the history of the screen . . . famous for her roles  
in "Camille" . . . "The Dove" . . . and "Kiki."

You can tell Old Golds . . . just as Norma Talmadge did  
. . . by their honey-like smoothness . . . their kindness to  
your tongue and throat. Because Old Gold uses no coarse  
top-leaves of the tobacco plant . . . no withered ground-leaves  
. . . only the delicate heart-leaves . . . golden ripe!

Made from the heart-leaves of the tobacco plant

## SORROW ENDS FEUD OF LOVE

Mrs. Berlin Forgiven by Stern Parent

They Embrace at Bier of His Mother

Reconciliation Does Not Include Husband

NEW YORK, Sept. 11. (Exclusive) Grief and death have healed the wounds that love and marriage caused in the proud heart of Clarence H. Mackay, the Postal Telegraph-Commercial Cables multimillionaire.

Stern Mackay, who hardened his heart against his daughter Ellen, when she chose Irving Berlin, once Izzy Balin, the singing waiter of Rigger Mike's in the New York Bowery, as her husband, relented today at the bier of his own mother, Marie Louise Hungerford Mackay.

It was a dramatic scene that marked Mackay's reversal of a kiss of forgiveness on his beloved daughter.

They're Reunited  
Stern and cold, his eyes dry, Mackay, just returned from abroad, stood beside the mountain of flowers that flanked the casket of 50-year-old Mrs. Mackay, who had married his father when she was a Nevada miners' boarding-house keeper and he was her 50-cent-a-day boarder.

A pale and dejected young man crossed the threshold of granite Harbor Hill, the overgrown home of the Mackays at Roslyn, L. I. She called. She took a timid step toward the cold old man who turned his face from her three silent years ago.

He did not move. She approached hesitatingly. Both were pale and silent. And then the severe old man moved toward the young woman wearing the classic mask of uncertainty. He kissed her. She threw her arms around his stiff shoulders. They walked toward the bier and together gazed on the features of their dead mother and grandmother.

BERLIN UNFORGIVEN  
But Berlin, apparently, is not included in the forgiveness. He is not included in the reconciliation. It was learned later that it was not a voluntary softening of Clarence Mackay's heart, but the death wish of his dying mother, which led him to Europe, that led the capitalist social leader, son of the \$1-a-day miner who became the \$300,000-a-month silver king, to forgive his daughter.

No funeral arrangements were announced today. But it was stated Ellen probably will lean on the arm of her father when regular services are celebrated for Mrs. Mackay tomorrow morning at St. Mary's Church, Roslyn. The funeral will be private. Whether Berlin will attend could not be ascertained tonight.

**Resolution on Forestry Filed by Farm Bureau**  
BAKERSFIELD, Sept. 11.—A resolution that a County Board of Forestry be created and the position consolidated with that of the County Fire Warden's department, was adopted by the Kern County Farm Bureau presented a formal resolution to the Board of Supervisors today.

The proposal is to have the County Fire Warden employed in the winter in tree planting supervision and other work of a kindred nature. This work would be done when the hazard of fire no longer requires constant attention.

Chairman Williams stated that, if action was taken, the county would have to organize a forest district under provisions of the State law. After this a forester might be employed for the double duty in his opinion. The Supervisors filed the resolution for future consideration.

**Egyptians Greet Prince of Wales**  
ALEXANDRIA (Egypt) Sept. 11. (AP)—The Prince of Wales and his younger brother, the Duke of Gloucester, were given an enthusiastic welcome when they arrived here this evening on the steamship Kalmar-I-Hind. King Fuad's yacht, Manoussa, and the yachts of several Egyptian Princes joined with British warships and other vessels to escort the liner to port.

After being received by British and Egyptian authorities, they drove straight to the British Residency, where a dinner and reception were held. They will lunch with King Fuad tomorrow.

**OLYMPIAD COXSWAIN PAYS VISIT TO HOME**  
VISALIA, Sept. 11.—Donald Blessing, local boy, who is coxswain of the victorious University of California eight-oared shell crew which brought victory to the United States in the recent Olympic contest at Amsterdam, has been making a brief visit here to his father, J. S. Blessing. He expects to return to Berkeley tomorrow.

In spite of the pleasure of the trip, Blessing declines to be interviewed. He reached New York and doubly happy to be back in California.

Vincent Mullin, slated for a member of the varsity crew at the University of California this year, accompanied Blessing on his trip here.

**KERN COUNTY FILES MARRIAGE FIGURES**  
BAKERSFIELD, Sept. 11.—Kern county had fewer marriages last year and more divorces than the year before, figures furnished by County Clerk Frank E. Smith, today revealed.

During 1934 this county had 701 marriages, against 787 during 1933. Divorces during 1934 totaled 310 against 185 for the year of 1933. Annulments during 1934 totaled eighteen, against sixteen for 1933. The three-day wedding notice law is held responsible in some measure for the decrease in marriages.

## COOLIDGE'S SON GOES ON HIS NEW JOB

Reports for First Day at Railroad Offices Ten Minutes Before Time

NEW HAVEN (Ct.) Sept. 11. (AP)—John Coolidge, son of President Coolidge, today entered upon his career as a railroad man by reporting for duty ahead of schedule. It was 8:30, ten minutes ahead of reporting time, when he came to the "yellow building," the roomy structure which houses the heads of departments of the New York, New Haven and Hartford railroad system.

To the hundreds of clerks was added John Coolidge, and his identity for a time will be submerged from the viewpoint of the railroad, into the clerical force. He will be one of the clerks in the office of J. A. Droegge, general manager of the New Haven system, whose office is the heart of train operations in all Southern New England.

Young Coolidge came to work in a blue suit, blue shirt and tie, and gray hat. He reported at once to the chief clerk in Mr. Droegge's office. His first duties will be of a routine nature.

**Mills Stands by His Figures**  
WASHINGTON, Sept. 11. (AP)—Ogden L. Mills, Undersecretary of the Treasury, who was charged by Gov. Smith yesterday with "misstatement and misrepresenting official affairs" of New York, replied to the Democratic candidate today that "I stand by my statement."

Mills drew Smith's fire when he said in an address at UConn Saturday that under Smith's administration the revenues of the State had increased and that there had been neither tax reduction nor a decrease in the State debt.

**Maine Doesn't Bother Raskob**  
NEW YORK, Sept. 11. (AP)—Democratic National Committee Chairman Raskob expressed surprise today that Republicans had not won by an even larger margin than they did in the Maine elections.

"We have regarded Maine as a Republican State all along," he said. "I don't think the national issues were involved at all in the Maine elections. We thought it purely a State fight up there and took no active part. I understand the Republican National Committee took a very active part."

**SMALL BUSINESS MEN FLOCKING TO HOOVER**  
WASHINGTON, Sept. 11. (AP)—M. Bert Thurman, Republican national committee member from Indiana, is of the opinion that "small business men, thousands of them in Indiana and elsewhere, are going to vote for Herbert Hoover because of what he has done for them." He expressed this view in a conference with Chairman Work of the national committee.

## NEW FAIRYLAND EXPLORED

National Geographic Society Gets Report from Expedition to Alaskan Volcano Area

WASHINGTON, Sept. 11. (Exclusive)—Startling and magnificent scenic features that may make it another distinctive American wonderland were revealed today by Dr. Thomas A. Jaggar, famous earthquake expert of Honolulu, in further advice to the National Geographic Society in Washington concerning the society's expedition which he headed in the Mt. Pavlov volcano area of the Alaska peninsula. The area, in its own way, the report states, may be as remarkable as are the now famous Valley of Ten Thousand Smokes in Alaska, and the Carlsbad Caverns, New Mexico, both of which were set aside as national monuments after National Geographic Society expeditions had revealed their natural marvels and scenic beauty.

Dr. Jaggar wired his report to the society's headquarters in Washington from Seattle where the expedition has just arrived after a summer's adventurous exploration which disclosed huge volcano cones, amazing beauty, caribou, bears, foxes and hair seals in unexpected numbers and yielded valuable collections of rocks, minerals, fossils, flowers, mosses and sea weed.

**BABY MEDITERRANEAN**  
Through Pavlov Bay, at the tapering end of Alaska peninsula, which looks so slender and small on maps of North America, the party sailed seventy-five miles to the head of Canoe Bay, an almost landlocked body of water hitherto unexplored, which Dr. Jaggar describes as a veritable "baby Mediterranean."

North of that bay to the Bering Sea, and west of Port Moller, the explorers entered an area which disclosed hundreds of lakes scattered among treeless wastes and low ridges of great geologic interest. The expedition mapped 2500 square miles of United States domain which hitherto has been unsurveyed, recorded scores of physical features hitherto unnoted, and also corrected many details placed on older maps from tradition and hearsay.

"Old small scale Russian maps of this interior are quite erroneous," Dr. Jaggar says. "On the Bering Sea side several bays marked and named do not exist; the long glacier extending west from Pavlov is a great field of glacial lava. Mountains are misplaced and six lakes shown south of Nelson's Lagoon amount to a vast flat containing 500 lakes and ponds. The so-called Otter Bay mentioned on some pilot charts is in reality a valley."

**PARTY BEAVES ELEMENTS**  
By boat, foot and horse the party traveled some 1300 miles. Often they passed on amid fogs, fog and driving snows; sometimes they came upon valleys carpeted with the gorgeous flowers of the Far North—violets, daisies and lupines, and across miles and miles of tundra were the rounded "pin cushions" of moss, made pink, white, blue and yellow by clusters of tiny flowers.

Animal life was far more plentiful than had been expected. The party had been in camp at Canoe Bay only an hour when members saw tracks of the red fox and brown bear. On a short trip out of camp the explorers counted forty-two caribou and three bears. Crossing a mountain north of the bay the brown bears were so numerous, Dr. Jaggar noted, that "I began to wonder whether we could get back to the boat without stepping on a bear."

But it was on a volcano that a dramatic capture was made of a remarkable specimen. The bear was skinned for mounting and will be presented to the Cleveland Museum of Natural History. It measured nine feet ten inches from nose to tail. Skull and leg bones were preserved.

**GLORIOUS SCENERY**  
"Canoe Bay is a glorious place," Dr. Jaggar wires. "North is a fine snow volcano with its cup crater in full view, rugged encircling hills and sweeping 'wash fans' leading down to the water's edge, covered with dark purple tundra."

Then again no one can describe accurately the panorama that spread itself when the clouds lifted before camp at Pavlov Lake. Close at hand were the exquisite, pencilled cones of Pavlov Island and Pavlov, both glistening with ice. In the north face of Pavlov, the side toward us, is a mighty gash or split, where the whole north rim of a former circular crater had fallen away.

"Now we look to the right. Here is something unbelievable, so fantastic, so marvelous in sculpture, so delicate in outline that nothing in scenery elsewhere remotely resembled it—the Agkhlen Pinnacles. Jutting black minarets, spires, columns, in clusters, towers, domes, snowdrifts in the crannies. Individual steeples rise from the great square tower in the middle of the cathedral mass so slender, so utterly straight sided—like the Campanile, only thinner, that it seems incredible they do not fall with the first breath of wind. Yet they have withstood centuries of Arctic gales from the Bering Sea."

## Are You Tone-Conscious?

"Tone-Consciousness" is not a matter of musical education. It is rather a natural ability possessed by the great majority of people to respond to pure, rich, mellow, sonorous... perfect tone.

To all "Tone-Conscious" people, the glorious reproduction of the Kellogg Radio will be welcomed as a distinct accomplishment in radio development. Test it for yourself. Listen to the Kellogg tuned in on some great music. Be critical. Let your own innate "Tone-Consciousness" prove to you that the Kellogg is the radio you must have... to enjoy to full the pleasure that radio is capable of giving.

That's music brought to you by the Kellogg Radio—music that delights the most discriminating, tone-conscious ear.

With the Kellogg you love radio, not alone for entertainment and information, but for its masterful and loyal rendition, for its pure, unalloyed music. Music as music is when you are in the place where it is being played. For every mellow, hushed tone and every sonorous burst of harmony comes to you true—distinct.

Radio music with new beauty... a new thrilling magnificence... that's Kellogg Radio.

## SUBMARINE DEVICE TESTED

Escape of Men Trapped in Sunken Divers Believed Insured by New Invention

ON BOARD THE SUBMARINE SALVAGE VESSEL FALCON, SOLOMON'S ISLAND (Md.) Sept. 11. (P)—Going down into the deepest hole in the choppy waters of the Chesapeake Bay, three Navy divers today successfully accomplished a test to show that men entrapped in a sunken submarine can escape by means of a new submarine safety device, called the lung, from a depth of 155 feet.

The divers came from the bottom of the bay using the simple apparatus, which consists of an oxygen bag and a mouthpiece attachment. At the bottom of the bay they encountered a pressure of sixty-one pounds to the square inch but they reached the surface without the slightest discomfort and this dispelled all fears and dangers of diver's bends from the use of the apparatus.

The test was successful despite the fact that most unfavorable conditions and places for the experiment were especially picked in order that the reliability of the "lung" could be established.

### TEST SUCCESSFUL

The divers, who went down in a 5000-pound diving bell, which simulated a flooded compartment of a sunken, or wrecked, submarine, were Lieut. C. B. Mommson, submarine and diving expert, a co-inventor of the apparatus, and Navy Divers Joseph Eisen and Edward Kallmoski, of the Washington navy yard. They all performed service as divers during the salvaging of the wrecked submarines S-51 and S-4 in New England waters. The diving bell was let down to the bottom of the bay three times by the Falcon.

The divers were said by naval officers aboard the Falcon to have proved with their tests that the apparatus is the most successful ever devised. Lieut. Mommson explained that pure compressed oxygen can be breathed without injury by man and that was the type of the oxygen in the bag used with the apparatus. He added that the tests also showed nature can be depended upon for a certain amount of decompression if given sufficient time.

### BOATS TO BE EQUIPPED

It was made known that several scores of these devices are being constructed and their final test, that of being used for actual escape from a flooded submarine in 225 feet of water, will be made next month by the same divers.

The naval officers expressed a belief that today's successful test will result in the equipping of all of the seventy-eight submarines in the United States Navy with "lungs" for each member of the crew to be

placed in the escape compartments of the undersea craft.

Chief Gunner C. L. Tibbels and P. M. Hobson, naval engineer, who co-operated with Mommson in the invention, aided in directing the diving tests.

## Shipping Tied Up in Australia by Dock Strike

MELBOURNE, Sept. 11. (P)—All Australian ports were affected today by a dockers' strike after the waterside workers federation had repudiated a new award by an arbitration court. The award provided for two "pick-ups" of men, one in the morning and one in the afternoon. The men insisted on having only one "pick-up."

## Hughes Sails for New York

GENOA (Italy) Sept. 11. (P)—Mr. and Mrs. Charles Evans Hughes and their daughter, Elizabeth, sailed for New York today on the steamer Conte Biancamano.

Mr. Hughes, who yesterday accepted a judgeship on the world court for international justice, was silent as to any plans he has made for participating in the Presidential campaign in the United States.

## PUBLIC UTILITY QUIZ POSTPONED FIVE DAYS

WASHINGTON, Sept. 11. (P)—The Federal Trade Commission's inquiry into public utility financing, which was to have been resumed here on the 13th inst., was postponed today until the 18th inst. on account of a death in the family of Robert E. Healy, the commission's examiner.

Don't Squeeze Blackheads

—Dissolve Them

Squeezing out blackheads makes large, ugly pores. The safe and sane way to get rid of these blemishes is to dissolve them. Get two ounces of Calomite powder from your drug store, sprinkle a little on a hot, wet cloth, rub over the blackheads, and every one, big or little, will disappear at once.—Advertisement.

# A New Leadership

WE told you last week of the new Packard Standard Eight, the latest addition to Packard's line of fine and luxurious motor cars.

Now we announce the improved models of the Packard Custom Eight. These are offered in nine beautiful body types on the new 140" wheelbase chassis. The prices range from \$3175 for the fleet and powerful Runabout to \$3850 for the distinguished Sedan-Limousine (at the factory).

The original Packard Eight was the first prominent American car to offer the eight-in-line or straight eight motor and four wheel brakes.

Today finds four wheel brakes used almost universally while twenty of this country's makers are producing straight eight motor cars. In Europe the straight eight has displaced all other types of eight-cylinder engines.

We recount this because it is indicative of Packard's engineering leadership and because it impresses that a straight eight motor car is the *safest one to buy as far as depreciation is concerned.*

And now the new Packard Custom Eight takes over a new engineering leadership for it offers

something no other car in all the world possesses —the Packard Shock Absorbing System.

This combination of new inventions is almost magical in its effects. It makes the new Packard Eight not only the easiest riding car in the world but also the safest. This is so true that we would state it even more positively if we could find words to do so.

The new cars are available in all that the world of beautiful colors and fine fabrics affords. Their beauty of line and matchless riding quality are attended by the most luxurious upholstery even Packard can produce.

The new Packard Custom Eight has very definitely assumed a new leadership and especially in everything pertaining to comfort and safety in motor cars. We want to demonstrate this to you—and under any conditions that your ownership would ever call for. May we do so? You will be under no obligation to us in any way.

We cannot conceive of your riding in one of the new cars without wanting to have one. Your used car will help pay for it and then if you prefer to buy out of income you will find our payment plan a most agreeable one.

ASK THE MAN WHO OWNS ONE

# Aged Woman Invalid Arrives Here From San Francisco by Airplane

Too Ill to Attempt Train or Motor Trip From San Francisco to Los Angeles, Mrs. Kate F. Smith, 92, arrived here yesterday in a Western Air Express plane apparently undisturbed by journey. She was accompanied by her daughter, Mrs. Minnie Smith (right) and nurse. Photo shows stretcher being taken from plane. (Times photo.)

In a Thirty-seven-Foot Sloop Built by Himself, Edward Miles, sea adventurer, is off on a hazardous trip around the world, starting from New York. He is captain, cook and crew aboard the sturdy little vessel which will battle winds and waves of Seven Seas. (Herbert photo.)

The Time-Honored-Sponge, Always a Potential Incubator for Germs, which serve football players at West Point as a means of getting a drink, the Army coaches have devised a "water wagon," the feature of which is a sponge which will provide all the conveniences of the sponge in a water can. (P. & A. photo.)

Back From Europe where she has been studying modes, Anna Caldwell, once an actress and now a modiste, sees United States as future style center. (P. & A. photo.)

Presidential Nominee of Conservative party in Nicaragua, Adolfo Bernard, is visitor at Washington where he is conferring with State officials. (P. & A. photo.)

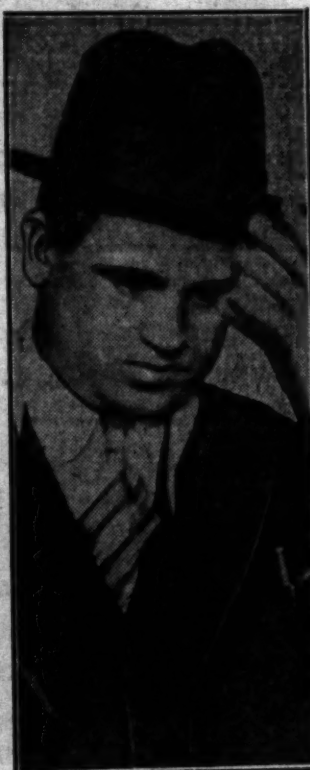

Triangular Strips of black and white impart individuality to gown worn above by Fay Wray, Paramount player. The gown is form-fitting.

"They Are Trying to Frame Me; They Haven't Told All the Truth! Frank Melius Hasn't Told the Truth!" From the witness stand, Superior Judge Bowron's court yesterday Leo P. Kelley, butcher boy sweetheart and accused slayer of Mrs. Myrtle Melius, hurled the above charges. It was Kelley's first day on the stand and his testimony throughout, dealing largely with his period of five years with the society matron, was the most sensational yet adduced during the trial. Above are four poses as he appeared on the stand. (P. & A. photos.)

While Young John Coolidge Goes to Work as a Clerk for a railroad company, Florence Trumbull, daughter of Gov. Trumbull of Connecticut and reputed fiancée of the President's son, arrives home from Europe and confirms engagement. This photo shows Florence on beach at Lido, Venice, Italy. (A. P. photo.)

Another Gangland Victim—Tony Lombardo, Chicago gang leader, was shot down from behind on crowded Chicago business street a few days ago. (P. & A. photo.)

No Human Has Ever Been Successful in Reaching Summit of the Great White Throne, a natural monument of silvery-white rock which rises 3300 feet from a base of crimson rock in Zion National Park, Utah. It is one of the wonders along the route from railway to Union Pacific's new lodge at Bright Angel Point on north rim of the Grand Canyon.

More Than Hundred Varieties of Roses will be exhibited at display rooms of the Germain Seed and Plant Company, Sixth and Main streets, next Monday during company's annual rose show. The Misses Doris Mosher (left) and Lillian Layne display samples.

## OUR HISTORY IN PICTURES

## 1131 The Story of the Panama Canal—Part 15. Col. Gorgas Stamps Out Yellow Fever.

by J. CARROLL MANSFIELD

WHEN THE AMERICANS TOOK POSSESSION OF THE PANAMA CANAL ZONE (1904), THEY FOUND IT A PLAQUE SPOT, INFESTED WITH YELLOW FEVER AND MALARIA. THE FIRST STEP WAS TO RID THE ISTHMUS OF THESE DISEASES, WHICH HAD BEEN PARTLY RESPONSIBLE FOR THE FAILURE OF THE FRENCH CANAL BUILDERS. COL. WILLIAM C. GORGAS, OF THE ARMY MEDICAL CORPS, WAS ASSIGNED TO THE TASK OF MAKING THE CANAL ZONE A SAFE PLACE TO LIVE IN.

YELLOW FEVER IS CARRIED BY A SPECIES OF MOSQUITO, AND A VIGOROUS CAMPAIGN TO EXTERMINATE THESE PESTS WAS LAUNCHED AT ONCE. A "MOSQUITO BRIGADE" SET TO WORK SPRAYING WITH OIL THE STAGNANT POOLS WHERE THE LARVAE BREED, DRAINING OR FILLING IN THE SWAMPS, AND REMOVING THE TANGLED UNDERGROWTH.

ALL THE PEOPLE OF THE ZONE, CANAL EMPLOYEES AND NATIVE PANAMANIAN ALIKE, WERE ENLISTED IN A GREAT CRUSADE AGAINST THE MOSQUITO. ALL LIVING QUARTERS WERE FUMIGATED AND SCREENED, AND IT WAS CONSIDERED AN OFFENSE TO HAVE STANDING WATER ANYWHERE ON THE PREMISES.

IT WAS ANOTHER STEP IN THE CAMPAIGN TO RID THE ISTHMUS OF YELLOW FEVER. ON UNTIL THE ISTHMUS WAS FREE OF SUCH EXTREME DISEASES, THE CANAL COULD NOT BE OPENED TO TRAFFIC. IN 1904, THERE WAS ONLY A SINGLE CASE OF FEVER IN THE ENTIRE CANAL ZONE.

WEDNESDAY MORNING.

**TRANS-PACIFIC MAIL**

[illegible]

***New-day high compression motors have more than ever made this anti-knock fuel a necessity***

than ever before it is necessary to control the rate at which this mixture burns, in order to give the pistons a smooth, powerful and sustained push on the down stroke. Ethyl in gasoline does this perfectly.

**This remarkable fuel has made high compression motors possible. Thousands of motorists are daily turning to Ethyl for positive efficiency in motor performance.**

**Why Ethyl Means More Power**  
With the combustion chamber in your  
motor made smaller

# Beware of imitations of ETHYL GASOLINE

**Increasing public acceptance has invited imitations. Be sure your Ethyl gasoline comes from a Union or an Associated pump.**

**and the gasoline-air mixture compressed 20 to 40 pounds per square inch more**

## Ethyl... A Scientific Development

**Ethyl fluid was developed after 7 years' experiments in the great research laboratories of the General Motors Corporation. Leading automobile engineers and racing men collaborated in this development.**

**The Ethyl gasoline you use today is not an experiment. It is the proven anti-knock fuel for present-day motors.**

***From the pumps of these companies only can you get genuine Ethyl gasoline on the Pacific Coast***

# UNION OIL COMPANY

**Union Ethyl pumps  
are white with a  
blue spiral stripe**

# ASSOCIATED OIL COMPANY

**Associated Ethyl pumps  
have a diamond design  
in red, green and cream**

**ETHYL GASOLINE CORPORATION • 25 BROADWAY • NEW YORK**

## CORDON CLOSES ON FUGITIVES

**Fleeing Convicts' Capture Believed Near**

**Pair Only Survivors from Prison Outbreak**

**Four Felons Likely Drowned in Mississippi**

BATON ROUGE (La.) Sept. 11. (AP)—Two convicts, the only successful ones of thirteen prisoners who made an attempt to shoot their way to freedom Sunday night from the Louisiana State prison farm at Angola, near here, were being hunted in the thickets near the prison today.

Earl Swanson, robber, and Lawrence Collier, murderer, who slipped away into the woods while their companions in the break were engaging prison authorities in a running gun fight, while attempting their getaway in a small Mississippi River launch, are the only ones, prison authorities believe, who gained their freedom.

Aubrey Kitchner, one of the escaping convicts, and Jack Brown, a trusty who endeavored to prevent the escape, were killed. They were buried yesterday.

Four others, including Cleveland Owen, New Orleans desperado, are

## ROVING WHOOOP ROVES NO MORE

**Jimmy's Gregarious Ideas Expose Mates and Police Curb It by Force**

CHICAGO, Sept. 11. (AP)—Jimmy Moran, 5 years of age, won't keep his whooping cough at home, so Lake Bluff police are keeping it home for him.

Jimmy's whoop didn't curb his playful ambitions, so he eluded his grandparents, with whom he lives, and exposed his cough to hundreds of children in a grade school across the street.

Health commissioners appealed to the police. Now officers patrol Jimmy's front lawn in three shifts daily to keep Jimmy on the premises.

believed by prison authorities to be dead. They were seen to fall overboard from their launch after being shot by pursuers. Eleven other persons, convicts and guards, were wounded and were being treated at the prison hospital today.

The search for Swanson and Collier centered about a thicket about three miles from the prison, where a trusty reported having seen the fugitives.

## NEWS OF THE OIL FIELDS

BY HOWARD C. KEGLEY

The State Company, drilling its State No. 1 well on the Bradbury lease, located at the head of Gundry and Burnett streets near the Lovelady pool, at Signal Hill, has drilled the deepest hole on the hill. Yesterday it was cemented off at a depth of 7780 feet with bottom at 8070 feet, after having drilled through oil sand from 5900 feet to the present depth. All of the oil sand that has been penetrated is said to have been good live stuff. It is considered probable that the well will be completed within a week.

If such should be the case its owners, W. E. Kizard and Chester A. Fear, will share the distinction of having the deepest producing well in the world.

The company has in addition to its three and one-quarter-acre lease at this location, Henshaw lease, situated near Twenty-first street. A derrick is to be built on it at once.

**Reports New Sand**

Signal Oil and Gas Company operating on the Maricopa Flats has deepened its Signal Maricopa No. 1 well to approximately 3500 feet and says it has encountered a new oil sand producing oil of 28 deg. gravity. The well threatened to blow out during the later stages of drilling. An effort was made to place tubing in the hole, but due to too heavy gas pressure, it was impossible to do so and the well was allowed to come in through the casing.

**Cal-Mex Completion**

The Cal-Mex Oil and Refining Company completed its Marine No. 21 well yesterday, at Marline and California streets at Signal Hill. It is a subsidiary of the United Petroleum Company and is being drilled by the California Eastern

ing. It is now producing about 300 barrels a day.

**C.M.C.O. Gets New Producer**

Chanalar-Cantfield Midway Oil Company completed its Hobson No. B-3 well at Sealiff, swabbing it in early yesterday morning with an estimated flow of approximately 1500 barrels daily.

**Shell Completion**

Having completed its Stake-Miller No. 5 well yesterday at Signal Hill, the Shell Company, followed up with the completion of its Pickler No. 8 well with rather disappointing production. It is flowing by heads at fifteen-minute intervals, from a depth of 7563 feet, and is said to have yielded approximately 1000 barrels in the last twenty-four hours. Stake-Miller No. 5 well is building up. It is producing 1600 barrels from a depth of 7350 feet.

**Complete Foundation**

In the Richfield district, O'Brien & Weber are preparing to drill their No. 1 well. It is located 150 south and 200 west of the northeast corner of Lot 5-30 in the Yorba Linda tract. The foundation has been completed and material is being hauled on the field.

**To Try Another Depth**

The Milroy-Midland No. 2 well of the Cypress Oil Company in the Roecrans field came in yesterday with such poor production that it was killed and now stands cemented at a depth of 5748 feet. Preparations are now being made to deepen the hole approximately 100 feet.

Petroleum Corporation, on a nine-acre lease held by Cal-Mex and the Umpire Company. The well produced 2000 barrels the first twenty-four hours from a depth of 6700 feet.

In the Los Cerritos field the Umpire Petroleum Company is preparing to deepen its Umpire No. 34, No. 35, No. 36 and No. 37 wells, and four new wells are scheduled to be drilled there.

**Two New Projects**

Three wells should be drilling and one on production in the Elwood field at Coleta within the next ten days, according to field reports. Derrick is up and machinery is being moved in for Dunlap & Knapp's Orphan No. 1 well on a stray lot in the Elwood Terrace tract.

The Bankline Oil Company, operating on the Elwood ranch, north of the State highway, is starting derrick for its first well known as Doty No. 1, while the Barnadall-Rio Grande combination is reported to be drilling ahead at about 2800 feet in its Elwood Community No. 1 well, in formation which is checking up favorably with that of the Luton Bell No. 1 discovery well.

**Supplies for the Byrd Expedition**

are already being assembled here by William A. Robertson, terminal superintendent of the Luckenbach Steamship Company and local representative of the expedition. The C. A. Larsen will arrive at the expedition's advanced base on the shores of the Ross Sea about December 15, stopping en route at Patterson Inlet, on Stewart Island, supply base of the whaling company.

First photographs of the Byrd expedition in action will be brought to Los Angeles in April, 1933, when the C. A. Larsen returns here with her whale-oil cargo, harvest of her operations in the Ross Sea. While whaling in the Ross Sea, the C. A. Larsen will also be made available for rescue purposes and she carries one of the most modern and powerful radio equipments afloat, being able to communicate daily with stations at Bergen, Norway, 14,000 miles from the Ross Sea.

## WHALER COMING TO PICK UP BYRD

**Steamer C. A. Larsen Due at Harbor October 5**

**Antarctic Expedition to Sail Ten Days Later**

**Assembling of Supplies Now Under Way at Port**

The Norwegian whaling steamer C. A. Larsen, on which Commander Richard E. Byrd and members of his Antarctic expedition will sail from Los Angeles Harbor about October 15, next, for the Ross Sea, will arrive here from Norway on October 5, next, it was announced yesterday by Richard J. Brophy, business manager of the Byrd expedition.

Next week, at Norfolk, the C. A. Larsen will load the expedition's three planes, the Floyd Bennett, Fokker and Fairchild, and then proceed direct to this port, where she will take aboard 20,000 barrels of fuel oil and several thousand tons of stores, to be used in next season's operations of the fleet of the Ross Sea Whaling Company, of which she is the chief unit.

Supplies for the Byrd expedition are already being assembled here by William A. Robertson, terminal superintendent of the Luckenbach Steamship Company and local representative of the expedition. The C. A. Larsen will arrive at the expedition's advanced base on the shores of the Ross Sea about December 15, stopping en route at Patterson Inlet, on Stewart Island, supply base of the whaling company.

First photographs of the Byrd expedition in action will be brought to Los Angeles in April, 1933, when the C. A. Larsen returns here with her whale-oil cargo, harvest of her operations in the Ross Sea. While whaling in the Ross Sea, the C. A. Larsen will also be made available for rescue purposes and she carries one of the most modern and powerful radio equipments afloat, being able to communicate daily with stations at Bergen, Norway, 14,000 miles from the Ross Sea.

The big whaler was made available to Los Angeles by his close personal friend, Magnus Knorow, noted Norwegian yachtman and chief owner of the Ross Sea Whaling Company.

## ROYAL MAIL PACKET PLANS NEW CARRIERS

Royal Mail Steam Packet, which ten days ago ordered another new motor liner for the Pacific Coast run, is reported planning two more ships of similar size to be built next year for the same service.

All will be similar in size to the Lochmorar; all will carry passengers and freight, and all will have a scheduled speed of at least fourteen knots. Each will be bountifully equipped with refrigeration space to carry bananas north and California perishables to Europe.

The Lochmorar also will be back late in November after repairs following her crash off Liverpool six months ago. The motorship broke in two, but was not only repaired but fifteen feet was added to her length, and with new superchargers, she will make one and a half knots more speed than before.

The motorship Lochmorar brought seven passengers and 1500 tons of freight, in from Europe and Central America yesterday. Mrs. Christine Compton, American actress, disembarked en route around the world via New Zealand. The vessel also discharged 17,000 bunches of Panama bananas for United Fruit Company.

Capt. J. Duchesne, master of the French Line steamer Notre Dame de Fourviere, in from Europe yesterday, will leave that ship on his return home and go to Germany to supervise construction of the new motorship Oregon, which he will bring to this coast in April.

The vessel, designed after consultation with Duchesne, will displace 15,000 tons, be 485 feet long, and have accommodations for forty passengers, as well as 500 tons of refrigeration.

She will be the first motorship in the French Line fleet of 100 vessels. Two other steamers, new building, the Wyoming and the Wisconsin, also will enter the Pacific Coast run on completion.

"Never mind the medical case, but save my cap; it cost \$2." That was the chief concern of Dr. Ted Niemann, United States Public Health Service, as he came up from a deep dive in the sea yesterday. He was trying to board the tanker Nordanger. Ground swells were tremendous and Dr. Niemann leaped for the accommodation ladder as his boarding launch slid down the trough of the sea. He landed fairly, in the water. "Doc" couldn't swim but he managed to come to the surface wrong side up, and a protruding foot was seized by A. J. Kaufman, customs inspector, and the rescue accomplished. The medical case is somewhere at sea, but they saved his cap and "Doc" is happy. He borrowed some dry overalls and boarded the ship at the dock.

Although new, big high sea ball boats were expected to obviate shore tune fishing off Turtle Bay by small craft, usually numbering 200 in September, three little craft are fishing there for John Heston and he will have fifteen soon. It was reported yesterday. The first tender came up with more than fifty tons. Big boats are gradually getting under way for the high seas. The Adventurer and the Sacramento will be completed in a week. They are 113 feet long and can carry more than 200 tons of feed fish, each. The former is being built by the Harbor Boat Building Company for August Pflando, the latter at Al Larson's yards for John Santos and Manuel Souza.

The steamer Aguilera of the Atlantic, Gulf and West Indies Line, has been chartered for one trip by the Panama Mail Steamship Company, and is due here October 11, next. She takes the schedule of the Ecuador, repatriating in New York following her beaching at Magdalena Bay. The latter will follow shortly. The line's motorship City of Panama is due at daylight today with twenty passengers from Central America and the Venezuela with 100 from New York tomorrow. Dr. George Radford Cowles, fellow in the Royal Geographical Society, is aboard, en route to make a survey of the high Sierras.

# POLITICIANS VISIT TRAIN OF COOLIDGE

President Receives First Callers on His Way to National Capital

ABOARD PRESIDENT COOLIDGE'S SPECIAL TRAIN, GARRETT (Ind.) Sept. 11. (P)—Scheduled to arrive in Washington early tomorrow morning to resume his regular executive duties in the capital after a long vacation in Wisconsin, President Coolidge found national politics impatient to reach him and today he received the first callers since leaving the secluded shores of the Brule River.

James W. O'Connell, western Republican campaign manager and Representative Newton of Minnesota, head of the Republican campaign speakers' bureau, took advantage of a stop of the Presidential special in Chicago to board the train and confer with the Chief Executive. Mr. Newton was in Superior last week where he sought to induce Mr. Coolidge to deliver speeches for the Republican ticket in the course of the campaign.

Besides these callers, Mr. Coolidge invited Secretary Davis of the Labor Department, who has been speaking in Pennsylvania, to board his train at Newcastle Junction tonight and return to Washington with him.

President Coolidge showed himself very anxious today on his long ride through middle western farm lands to keep in touch with the electoral results in Maine.

No comment, however, was forthcoming as to his reaction to the news.

# REGULARS IN DELAWARE'S G. O. P. WIN

C. D. Buck, Son-in-Law of Senator Du Pont, Chosen as Candidate for Governor

DOVER (Del.) Sept. 11. (P)—After a bitter factional fight, what is known as the organization wing of the Republican party in Delaware scored a victory today in the State convention by nominating C. Douglas Buck, son-in-law of United States Senator Du Pont, for Governor.

Mr. Buck is State Highway Engineer and lives at State Road, Newcastle county.

Former Gov. Townsend was nominated for United States Senator and Robert G. Houston was renominated for Representative without opposition.

The fight was solely on the Governorship. Sussex county had claimed the right under the county rotation plan to make the nomination and at its caucus forty-one of the forty-two delegates had voted for I. D. Short of Milford.

Short did not meet with the approval of the organization faction. Buck then was suggested and nominated by a vote of 104 to 54.

After the result of the ballot was announced most of the Sussex county delegates walked out of the convention hall, declaring they did not receive a "square deal."

There was no organized plan on the part of the bolters. One of them merely remarking that the other nominations "mean nothing to us."

# LEAGUE BEGINS RHINE DEBATE

Evacuation Discussed by Five Powers

Lord Cushendun Gives Talk on Disarmament

French Defend Briand's Attack on Germans

GENEVA, Sept. 11. (P)—Beginning of a five-power conference on evacuation of the Rhineland, a frank discussion of disarmament by Lord Cushendun of Great Britain and repercussions of yesterday's blunt speech by Germany by Foreign Minister Briand of France, occupied League circles today.

The conference on the evacuation of the Rhineland got under way this afternoon with Germany's Chancellor, Herman Mueller, and Undersecretary Von Schubert representing Germany. Lord Cushendun was sitting for Britain. Vittorio Scialoja for Italy, Paul Hymans for Belgium and Aristide Briand for France. Minechiro Adachi of Japan also attended since he is a member of the conference of ambassadors, which watches over the Treaty of Versailles.

MEETING PRELIMINARY

The meeting was planned as a preliminary getting together with an eye to exchange of views prior to a more formal conference later.

The Franco-British naval accord came up once more in assembly meeting today, when Lord Cushendun, who is acting British Foreign Minister, stated he regretted no more progress toward disarmament had been made.

He said he shared the German Chancellor Mueller's disappointment in this regard, but that unforeseen difficulties such as recognition of technical views of nations, had arisen to delay progress of disarmament. He pleaded, however, for continued hope in the movement and predicted the day would come when large armaments would be an "anachronism of shame," and that nations entering into war would incur disaster among their neighbors.

He indicated that if the British-French naval accord did not meet with approval of other nations it might be revised so as to do so, and said that it had been contracted only as a basis for further discussion.

Meanwhile Foreign Minister Briand's speech of yesterday continued to monopolize conversation. In German circles there was heard with renewed conviction the contention that it indicated anew that France stands for absolutely no amelioration of the present political conditions of Europe, inasmuch as they concern Germany.

In French circles—and elsewhere there was heard only praise of M. Briand's address. It was said that it had been most praiseworthy in its frank discussion of disarmament and that the League must always be a forum of plain speech.

# LOVE'S LABOR LOST—ON IBN

Kellogg Ignores Hedjaz in War Pact and Sultan Won't Play New

JERUSALEM, Sept. 11. (P)—The Jewish Telegraphic Agency reports that the Hedjaz, Sultan of King of the Hedjaz, feels slighted that he was not invited to sign the Kellogg treaty renouncing war as a national policy, according to dispatches from Mecca to the Arabic Press here.

The leader of the war-like tribes of the Arabian desert is resentful that neither he nor any other of the Oriental potentates was invited to the Paris conference. The dispatches added that Ibn Saud would not sign the treaty unless he was invited to a consultative conference.

Instead of polite emptiness when plain speech escaped justified. M. Briand himself told newspapermen that he wished to show no hostility to Germany, but felt keenly the necessity of answering Herr Mueller's contention that Germany had disarmed while others had not done so. He said he was convinced the majority of Germans were peace-loving, but there was an element which caused some uneasiness.

CONVERSATIONS BEGUN

Both Foreign Minister Briand and Chancellor Mueller were smiling when they left the hotel of Lord Cushendun where the evacuation conference was held. A communiqué on the meeting issued tonight said: "Conversations have commenced on the question of evacuation of the Rhineland. There was a full exchange of views. The discussion is continuing and will be resumed on Thursday."

It is understood the Germans adhered to their program of not presenting any definite written plan for evacuation. Chancellor Mueller, in a speech, said that Germany had fulfilled the Versailles obligations, especially in relation to the Dawes plan, and that maintenance of Allied troops on German soil would engender animosity in the German people.

The discussion was described as thorough without achieving any concrete result, which indeed is only expected after a long series of conferences.

Sweet of Denver to Back Hoover

DENVER, Sept. 11. (P)—Former Gov. Sweet, Democratic dry, announced today that he will support Herbert Hoover for President in the coming election.

He intends to back the rest of the Democratic ticket, he asserted.

NOTAS TELEGRAFICAS

Solo Dos Frenos Lograron Escapar del Presidio de Luisiana

BATON ROUGE (Luisiana), Septiembre 11.—Dos sentenciados, de los trece que intentaron escapar su libertad a tiros, la noche del domingo, en el presidio agrícola de Angola, Estado de Luisiana, son los únicos que anancan todavía fugitivos, el bien perseguidos aun de cerca en la manigua inmediata al presidio.

Earl Swanson, ladrón, y Lawrence Collier, asesino, son los dos que pudieron ganar la espesura, mientras sus compañeros de evasión cambiaban balances con las autoridades de la prisión, y trataban de llegar hasta una pequeña lancha del río Mississippi, en la que contaban huir.

Murieron en la refriega Aubrey Kinchen, uno de los sentenciados evadidos, y Jack Broom, preso de confianza, que trató de impedir la fuga de los demás. Otros cuatro, entre los que se hallaba Cleveland Owen, desalmado bandido de Nueva Orleans, han de haber muerto también, según creen las autoridades.

pues a los vie caer de la lancha al agua a los tiros de quienes los perseguían. Once personas más, entre presas y guardias, salieron heridas, y se les está curando en el hospital de la prisión.

Se Extiende la Fiebre de Bembardes de Chicago

CHICAGO (Wisconsin), Septiembre 11.—La epidemia de bembardes, que hasta aquí se había concentrado en Chicago, se ha propagado ya hacia el norte, y ha llegado a Kenosha. Anoche dio otra bomba la casa de Alfred Gemmell, quien tiene bien remota relación con los disturbios obreros de las fábricas de hullados de Allen A. Esa conexión consiste en que su hermano William, que vive con él, está ahora empleado en dichas fábricas.

Esta bomba es la decimocuarta que han arrojado desde que comenzaron los desórdenes obreros, hace varios meses.

Nave Aérea de Akron Capta por el Vendaval

DETROIT, Septiembre 11.—El digno semirrigido "Puritan," propiedad de la Goodyear Tire and Rubber Company, de Akron (Ohio), quedó anoche seguramente amarrado en el aeropuerto de Ford, de esta ciudad, tras haber luchado victoriosamente contra una terrible tormenta de viento y lluvia que se desató cuando la aeronave se acercaba a la ciudad.

El dirigible fue juguete del viento durante treinta y cinco minutos; en una ocasión quedó enteramente invertido en el aire. Aminoró de repente el temporal, y el Puritan pudo continuar su marcha hacia el aeropuerto.

Hubo una Refriega en la Convención de Dallas

DALLAS (Texas), Septiembre 11. Entre las más salvajes escenas que se hayan registrado nunca en una asamblea democrática de Texas, los delegados que se oponen a la candidatura presidencial del gobernador

# NOTAS MUNDIALES DE ULTIMA HORA

Smith de Nueva York se salieron de la convención democrática del Estado, celebrada aquí hoy, y organizaron otra separada, bajo el nombre de "Los de la Gracia del Fair Park Auditorium, donde están reuniéndose los fieles."

Muchos de los líderes políticos más insignificantes del Estado hicieron uso de sus puños en una refriega general, que se desató cuando el ex-gobernador Colquitt, de alarado enemigo de Smith, se puso en pie pocos minutos después de abierta la convención, y gritó: "Que se retiren todos los demócratas leales."

Cuando los demócratas disidentes, que salían del salón entre silbidos y gritos de "Fuera los republicanos," intentaron arrostrarlos los estándares a las delegaciones de los leales, funcionaron los puños y hubo ojos amoratados y buen número de narices sangrantes. Policías uniformados disolvieron pódica docena de grupos liados a bofetadas, y cuando, por fin, renació el orden, los hooligans se dirigieron a la escase del frente a celebrar su reunión.

El Equipo de Los Angeles Ganador en el Tiro de Pistola

Mañana llegará a Los Angeles el equipo campeón de los Estados Unidos en tiro de pistola. Y lo que sin duda interesará más saber a los ciudadanos de esta población es que dicho equipo se compone de nuestro jefe de policía Davis, del teniente detective Bartley, y de los guardias de patrulla Ward y Nowka; todos ellos pertenecientes a la fuerza pública de Los Angeles.

Los miembros de este equipo traen consigo una gran copa de plata, que el año próximo pasado fue ganada por los hábiles tiradores del departamento de policía de Portland (Oregon). Este es el premio que se disputaron este año en Camp Perry (Ohio) los equipos citados y ago.

WASHINGTON, Sept. 11. (Exclusivo)—Loading of revenue freight for the week ended on September 7, totaled 1,116,948 cars, the car service division of the American Railway Association announced today.

This was an increase of 35,108 cars above the preceding week, with increases being reported in the total loading of all commodities except forest products, which showed a slight decrease.

The total for the week of September 1 was a decrease, however, of 412 cars below the same week in 1927 and a decrease of 20,500 cars below the corresponding week two years ago.

# NOTAS MUNDIALES DE ULTIMA HORA

Los de otras doce ciudades. Los miembros de nuestro equipo conquistaron, individualmente, otros varios trofeos.

Rifas Maritales Entre Moribundas

La policía atribuye una vez más al comercio de licor clandestino la causa indirecta del asesinato de un hombre y de las heridas, tal vez mortales, recibidas por otro la mañana de ayer. Los detectives llegaron a esta conclusión después de haber interrogado a los parientes, amigos y socios de El Fragin, de 40 años, con domicilio en la calle de Bernal, 988 1-2, y de Joseph Pavloff, de 47, habitante en la calle de Mott, 124 1-2. Fragin fue muerto. Pavloff, herido en la boca, se hallaba anoche moribundo en el hospital General. Cree la policía que Pavloff le dio tres balazos a Fragin, y luego volvió el arma contra sí mismo. Todo, como resultado de una disputa sobre repartición de las utilidades de una operación de venta de aguardiente.

WASHINGTON, Sept. 11. (P)—Dismissal of the complaint of the San Diego Chamber of Commerce that tourist and summer railroad excursion passenger fares between California, Oregon and Washington points and the East by way of San Diego are unreasonable was recommended to the Interstate Commerce Commission today in a proposed report by Interstate Fairing.

The San Diego chamber had asked the commission to "equalize" rates, contending that the present fares are higher by \$7.45 by way of San Diego than by way of other Coast cities.

The tentative report found that the present fares are on par with those by way of Los Angeles and the complaint will be dismissed unless the chamber undertakes to continue the case by submitting exceptions to the report.

FARMER DIES AFTER REACHING HOSPITAL

HANFORD, Sept. 11.—John E. Riba, who arrived from Oakland at 8 a.m., where he had been ill for some time, was taken to Sacred Heart Hospital and died four hours later. He was a farmer, 53 years of age, and is survived by a widow but no children.

CHET JOHNSON

What's Nudo on the Kialto

M. Rene Racover, a famous French theatrical producer, arrived in New York recently and announced that he intends to bring the shows from the Folies Bergere, the Casino de Paris and the Moulin Rouge to America next fall.

But, he added, "I realize I can't put over here the nudity that marks our shows in Paris."

After M. Racover has had a look at some of our "musical" reviews and "art" magazines, he'll probably come to the conclusion that nudity in Paris is still in its infancy.

## Lost Flyer's Brother Back Home Empty Handed

Hawaiian Search for Golden Eagle Wreckage Proves Unsuccessful

At top shows type of country over which Santa Monica hunted for remains of brother's plane. It shows where jungle meets lava at 8000 feet with Mauna Loa in the background. Drifting fog was a search handicap. To left, below, is Sheila Scott, sister; Gordon Scott, navigator of the ill-fated Golden Eagle; and Denham Scott, brother, who returned today from futile search. The photo was taken at Oakland airport just before the Dole flight started on August 16, 1927. To right is John Jamieson of Santa Monica, and "Red," army mule, who aided Scott's search.

play does great credit to the community. The department is in charge of Mrs. F. G. Munner, who has two excellent dolls on display. "Fishing Harbor in Norway," by Martin Thru, shows unusual color effect and admirable drawing. A sculptured head by Ben Evans is particularly well done and could compare with professional work.

A stock parade and horse show will be the chief feature of the evening entertainment at the fair. About 450 head of live stock including horses, cattle, sheep and hogs, are entered. Birds outnumber the stock 3 to 1, there being 1800 pigeons, chickens, turkeys and ducks entered.

**COSTLY AUTOS EXHIBITED**  
There is a large auto tent and most of the machines shown are of the higher-priced varieties. There is scarcely a machine shown under \$2500, and the greater number are \$3000 and over. The booth is leaning toward luxury and large families.

There is a separate tent for pump and pumping machinery. Some of these are in actual demonstration with a running stream and large pool of water. Another tent features farming machinery, tractors, mowers, drillers and the complicated equipment which science has had to invent to keep pace with the prodigious abundance of nature's varied products in this prolific farming section, famous for its fertility.

## One of Three Hurt in Crash

ONTARIO, Sept. 11.—Although their automobile was smashed to bits when struck by a Santa Fe train at a Riverside crossing last night, Mrs. J. F. Trefethen, 324 West B street, Ontario, was the only one of three in the car to receive injuries. Trefethen, his wife and his daughter, Jane, were thrown from the wreckage by the impact of the locomotive against their machine. The father and daughter were unharmed, but Mrs. Trefethen was severely cut about the head and face, her body was bruised, two ribs were broken and she received possible internal injuries.

**FULLERTON BREAKING RECORD**  
FULLERTON, Sept. 11.—Predicting that all past attendance records will be shattered by the end of the week, Fullerton school officials announced an enrollment of 2855 students when classes opened today. Registration will continue all week so that by Friday these figures will undoubtedly be materially increased.

## BLED SOE FORESEES CRISIS

Judge Declares Political Campaign Will Settle Whether Country Advances or Recedes

GLENDALE, Aug. 11.—The present political campaign places squarely before the people of the United States the decision as to whether the country shall continue its progress or whether it shall take a step backward in its election of a President to serve for the next four years, Judge Benjamin F. Bledsoe of Los Angeles declared last night in an address in Harvard High School before the Independent Voters League. After announcing his support of "The continued flourishing of the laws and the Constitution of the United States, as manifest in the lack of respect for and observance of the Eighteenth Amendment, is rapidly paving the way for a condition of anarchy, and the election of the Democratic candidate would only hasten this condition," Bledsoe asserted.

In introducing the speaker Councilman W. F. Tower, president of the league, stated that the present crisis in the country's history offers abundant reason for the abandonment of party affiliations and for rallying to the support of Hoover.

## VENTURA FAIR SET FOR CROWD

Directors Hope Attendance Will Reach 75,000

Advance Indications Show Widespread Interest

Officials Say Attractions Surpass Previous Years

VENTURA, Sept. 11.—With an attendance goal of 75,000 set by the Board of Directors of the Ventura County Fair Association, the 1928 fair management today was preparing to open its gates tomorrow morning to the largest crowd of visitors in its history. The advance sale of tickets, weather conditions and general county interest in the fair indicate a widespread interest in the fair grounds where the county fair is being held.

Promptly at 9:30 tomorrow morning a parade, forming the downtown business section, will proceed down Main street to Ventura avenue and from there will conduct a tour of the fair grounds where Dist. Atty. James C. Hollingsworth will deliver the official opening address.

## SCOTT BACK FROM SEARCH

Brother of Dole Flight Aviator Lost During Race Returns After Vain Hunt for Plane Wreckage

SANTA MONICA, Sept. 11.—Denham Scott was back at his home here today after a search of three months for traces of the wrecked airplane, Golden Eagle, which raced from San Francisco for Honolulu in August, 1927. His brother, Gordon Scott, and Jack Frost, the pilot, were aboard the ship of the air which ended the Dole race somewhere in the field of untraced wrecks and unsolved mysteries.

"I found no actual wreckage of the plane nor traces of my brother and Jack," young Scott, who shows clearly the effects of strain and exposure in one of the wildest, most difficult areas of the islands, said today. "Their signals undoubtedly were evidence to warrant my belief that the Golden Eagle crashed on the island of Hawaii, and that either one or both men aboard perished up there for at least a week, sending signals with a very pistol, of the kind carried in their equipment. I believe they crashed on Wednesday, August 17. Their signals undoubtedly were seen at night by islanders, white and native, on Thursday, the 18th, and Sunday, the 21st."

"Our search covered a well-defined area of Mauna Loa, where I was given every possible aid by the United States military officials at Honolulu. We made our main base at a rest camp on the rim of the Kilauea crater, where Capt. Block was in charge. I was furnished equipment, men and mules to assist in the search. I am returning with the assurance from Col. Howard, chief of the Hawaiian Air Service division, that another search by government airplanes will be launched as soon as the season of clearer weather, probably in October, makes it feasible."

At his home Scott was preparing to send a report of his search to the two brothers of Jack Frost, in New York. The Frost brothers were also aviators during the war. Scott returned home confident that the coming air search will reveal the wreckage. It will pry open the jungles and vast lava flows in which his own efforts, well-planned though they were, seemed puny when stacked up against forces of nature with which a searcher would have to contend nowhere in the world but in that volcanic island wilderness.

Scott told of jungles of mammoth ferns and trees almost impenetrable, of jungles of lava, higher up, where a fall meant a poisoned wound and where the sharp, hard formation cut up shoe leather to the expensive tune of \$1 a day for each man in the party. He told of a land where it rained almost constantly, yet where a man was as badly off as in a desert unless he had proper equipment for catching the water. The porous volcanic soil soaks it up faster than saturated heavens can pour it down. He told of constant, obliterating, discouraging fogs.

John Jamieson, young Santa Monica neighbor and friend of Scott, who went over to assist in the search, is still in the islands.

## BAPTIST MINISTERS CONVENE ON MOUNTAIN

UPLAND, Sept. 11.—Baptist ministers from churches embraced in the territory from Bakersfield to San Diego, are in conference at Camp Bledsoe today. The conference opened yesterday and continues until tomorrow evening for the 135 ministers in attendance. The opening session was in charge of Rev. Gordon Palmer, pastor of Pomona Baptist Church. The ministers have gathered at the mountain resort for fellowship, exchange of ideas, prayer and addresses by prominent Baptist leaders.

## THREE BOYS LAND IN JAIL

Alhambra Police Think They Have Captured Part of Gang Guilty of Numerous Robberies

ALHAMBRA, Sept. 11.—With the arrest early today of two youths who were driving an automobile asserted to have been stolen in Culver City and the arrest later of another boy on suspicion of burglary, Alhambra police believe they have rounded up members of a gang responsible for a series of burglaries and auto thefts in this city and at least in the series of offenses is expected in a few hours.

The boys captured in the stolen car are Daniel Welch, 14 years of age, of Monterey Park, and Wilfred Rosecrans, 16, of this city. The youth arrested later is Ben Westmore, 16, of Wilmar.

Welch is said to be out on probation and Westmore has also been in custody of juvenile authorities on previous occasions, police state.

At least thirteen burglaries in Alhambra, police say, have been committed by the gang, and it is thought the boys have been responsible for burglaries in several near-by towns within the past few months. An armed hold-up, to which Westmore is said to have confessed, was staged at a store in Belvedere. Only \$1 was obtained. The amount of loot stolen by the boys is small, consisting of small amounts of money and a few articles of jewelry. A revolver was obtained at the home of John W. Palmer, 316 East Glendon Way, recently, and the boys are believed to have used it in their hold-up escapades.

In robbing a house, it was their custom, the police learned, to first knock out the occupants, to first a doorman, and if they found some one at home, make a pretense of asking for work. If they found no one at home they would cut a screen and enter by a rear window. In a few instances they would push above a paper under a door, push out the key and pull the paper and key out.

Marple's application for probation is to be heard by Judge Henderson on the 28th inst., at 2 o'clock, when he will also pronounce judgment. The men were arrested when they approached Sheriff Clark in a private room on the third floor of the Court House with an offer of \$1000 to raise bail for several men. Marple has been in the County Jail in lieu of \$1000 cash bail after his arrest. He was held in the County Jail for several days and then turned down by Judge Malvern Dimmick of the justice court when the judge decided the security was not strong enough.

## Prince Visits Santa Barbara

SANTA BARBARA, Sept. 11.—Prince George, youngest son of the King of England, got his first view of Santa Barbara at close range today and expressed himself as delighted with the city. As guests of J. P. Kennedy, president of the local Chamber of Commerce, the young prince, who is a lieutenant on H.M.S. Durban now visiting in the harbor, and several other junior officers were driven about the city.

They paid a visit to the old mission, where the prince was deeply impressed by its beauty, age and history. Then there was a drive over King Albert Boulevard to Montecito, where the prince was shown a view of Santa Barbara and the channel along the coast. In the afternoon a visit was paid to the J. J. Mitchell estate, after which the young officers were taken to the Montecito Country Club, where the prince and three of his brother officers proceeded to try out the golf course.

## PARTIAL DEAFNESS BLAMED IN ACCIDENT

PASADENA, Sept. 11.—Partial deafness which prevented her from hearing the crossing wig-wag bell is reported to have resulted in the accident today in which Miss Agnes Quetta, 60 years of age, of 1691 North Los Robles avenue, incurred probably fatal injuries when she was dragged fifty feet by a Santa Fe locomotive along the Holly street grade crossing.

Emergency Hospital Surgeon J. P. Smuckalski stated that Miss Quetta's skull was fractured and her cheek, neck and ankles badly lacerated. Her recovery is said to be doubtful.

**BREA SCHOOLS REPORT**  
BREA, Sept. 11.—Local schools reported today at the opening of the school year. Of this number forty were in kindergarten, 192 in Laurel school and 294 in the Brea grammar school.

**YORBA LINDA SHOWS GAIN**  
YORBA LINDA, Sept. 11.—The "approximate" enrollment for the coming year of grammar-school students in the school here was 180 at noon today. This is a slight increase over last year's opening day.

## NEW FIRE BACK OF OJAI

Matilija River District Reported as Scene of Blaze Which Has Burned Into Watershed

SANTA BARBARA, Sept. 11.—A fire in the upper reaches of the Matilija River, back of Ojai, was being fought today by fire-fighters under District Rangers Ellis and Valentine. Late this afternoon it was reported to have covered more than 500 acres of virgin watershed and was endangering the timber on Ortega Mountain.

Fire Guards William Gove, Arthur Aiken and Arthur Evans were dispatched from the Santa Ynez and coast districts to aid in quelling the blaze.

**SUPERVISORS WILLING TO HELP PREVENT FOREST FIRES**  
SAN DIEGO, Sept. 11.—The County Supervisors are willing to pass any enforceable ordinance to aid in forest-fire prevention over the county, Supervisor E. A. Hornbeck stated today in reply to a query. Chairman Joseph Foster and Supervisor Mrs. Mildred L. Greene were noncommittal for the county, Supervisor E. A. Hornbeck stated today in reply to a query. The supervisors will welcome workable suggestions for reducing the fire hazard in the forests, Hornbeck concluded. Expense must be considered among the first obstacles to overcome, in his opinion.

## BEDBOROUGH IN PASADENA HOME

Famous British Philosopher Visiting Cousin

Author Admits Application for Naturalization

Simpler Language Offered as Boon to Humanity

PASADENA, Sept. 11.—"America is already uplifted if one may judge by the fifty-story skyscrapers I have seen in the course of my journey from the Atlantic Coast—I don't see how a 'six-story' Englishman could lift her higher," declared George Bedford, London philosopher and member of the Royal Society of Literature, who is a guest at the canyon home of his cousin, Mrs. Lorraine Helen Maller, in this community. Bedford, editor and founder of Vicars' News and known for his philosophic epigrams throughout the British Isles, was "somewhat abashed" when he was caught drinking a glass of Veldstad grape juice this morning on the porch of his cousin's home. Although he has been in the United States for only a few weeks, he revealed that he has taken out his first citizenship papers and may reside permanently in Southern California.

**ANALYZES WORLD WOES**  
The great trouble in the world at the present time, according to the British philosopher, is the failure of nations in political and economic fields to get together and talk things over in terms of one syllable.

He thinks that the League of Nations is one short step toward eliminating international differences, and that hopes for industrial peace rest in the hands of employers and employees' organizations.

"When opposing groups express their differences in concise language, many of the differences fade away and legitimate protests are understood," declared the founder of the Vicars house organ.

As the author of more than 300 children's stories, Bedford has attempted in this field to remove the lack of clarity in language that he thinks is an obstacle to world progress. By using simple language, a child may gain a clear understanding of large things, he believes.

## Redlands Church Members to Act on Resignation

REDLANDS, Sept. 11.—Members of the First Presbyterian Church here will receive notices this week calling for a congregational meeting on Sunday to act on the resignation of the Rev. Paul Prichard, pastor of the church.

Prichard gave no reasons in making the request but he is said to have told church leaders that he is weary of friction and wants to be relieved of his duties before it becomes difficult to handle.

He came here four years ago from San Diego. He is well known throughout the south and several years ago was one of the trustees of Occidental College. He has been active here in civic work and is past president and one of the founders of the Knights of the Round Table. The church has in that time increased in membership and the financial situation is said to be excellent.

## Special Vote Planned on Dam

PASADENA, Sept. 11.—Whether or not this city will construct a \$7,000,000 water storage dam in San Gabriel Canyon probably will be decided at a special election to be held not later than December 18, when a bond issue will be submitted for the voters' approval, the Board of City Directors announced today.

It was planned to place the San Gabriel Dam bond issue on the November ballots, but this has been found impractical due to the fact that the plans and specifications for the dam are incomplete. The revised city charter will also be submitted for approval at this special election, according to a resolution passed by the directors this morning.

## ONTARIO LEAGION NAMES NEW OFFICERS

ONTARIO, Sept. 11.—Announcement was made today of results of annual election of officers to serve Ontario post of the American Legion for the next year. Officers at the helm are: Walter V. Combs, commander; Lester Pike, first vice-commander; Clayton Dyke, second vice-commander; Leo Murphy, adjutant; C. G. Stevens, assistant adjutant; George Knox, treasurer; A. A. Beasley, chaplain; John Galt, historian; Hans Serrislaw, sergeant-at-arms; C. E. Vinograd, assistant; H. D. Hickey, Earl Lester, Leland Davidson, executive committee.

### Another Big Scoop

For Our Service

On Tuesday, September 12th, when BANCALAN was selling around \$1.00 and BANK OF ITALY was selling around \$1.00, we advised our clients to get out of both of these stocks, and stay out of them until they had reached considerably.

We shall be pleased to consult with the owners of these stocks who are interested in knowing their real value and what they may be expected from them in the near future.

REMEMBER—This Bureau is absolutely impartial and is interested only in safeguarding the funds of its clients. We do not deal in any securities, stocks or bonds, therefore we have no "axis or grind." If you want authoritative facts and conditions relating to investments, we invite your inquiry.

If interested in our present recommendations on Bancal and Bank of Italy, sign coupon below and send immediately to our Los Angeles office, or call in person.

### BRANCH OFFICE MANAGERS

ONE of our clients, a large Eastern investment organization with offices on the Pacific Coast, contemplates the opening in the next ninety days of two or three new branches in cities adjacent to Los Angeles.

Men who qualify for these positions will become permanent members of the executive personnel. They will be paid a salary of \$300.00 per month, all expenses, and an over-writing commission on the sales crew under them. First of all, however, they must prove their ability in the sales organization. After they have demonstrated this, they will be given the opportunity for larger responsibility.

Replies should be made by letter only and will be referred to our clients in strict confidence. Please state age, experience and other qualifications in first letter.

## LOS ANGELES EXCHANGE

Bank of Italy and Bancitaly With Rio Grande Feature Local Market Trading

Speculative interest centered about the Giannini issues yesterday on resumption of the week's trading on the Los Angeles Stock Exchange. Early in the session, A. P. Giannini announced that although he would recommend an increase in the dividend rate of Bancitaly to \$4 next year, officials of the company would adhere to the previous statement that no increase or special distribution would be made in 1932. This, coupled with the declaration of the regular dividend on Bank of Italy, caused a headlong break in the two stocks.

Bancitaly crashed 19 1/2 points to demand moved the stock from the low for the day at 125 1/2 and rallied to close at 136, down 9 points net. Bank of Italy slumped 16 points to a low at 200 and rallied to 212, off 4 points net. Other bank issues reflected the depression but to lesser extent. California Bank, after opening at 120, broke 4 points to 125. Los Angeles-First National finished at 117 3/4 down 2 1/2 points. Merchants' National slumped 4 1/2 to 203.

Rio Grande featured trading in the oil list and was the only stock to advance in price. A steady demand

## \$4,500,000

### Department of Cauca Valley

(REPUBLIC OF COLOMBIA)

#### External Secured 7% Sinking Fund Gold Bonds of 1948

Dated June 1, 1928 Interest payable June 1 and December 1 Due June 1, 1948

This offering is confined to dealers duly registered under the laws of this State.

A cumulative sinking fund commencing December 1, 1928, operating semi-annually, is calculated to retire the entire issue by maturity through purchases in the open market below par or drawings at par.

NON-CALLABLE UNTIL JUNE 1, 1934, EXCEPT FOR THE SINKING FUND

Interest as a whole (but not in part except for the sinking fund) at the option of the Department on any interest payment date on and after June 1, 1934, upon sixty days' notice at 102 1/2% and accrued interest. Coupon bonds in interchangeable denominations of \$1,000 and \$500, negotiable as to principal only.

Authorized \$4,500,000. To be presently issued \$4,500,000. Principal and interest payable in New York City at the principal office of International Acceptance Trust Company, Trustee, in gold coin of the United States of America of the present standard of weight and fineness, without deduction for any taxes, present or future, levied by the Republic of Colombia or by any taxing authority therein or thereon.

Don Carlos Holguin Llereda, Governor of the Department of Cauca Valley, summarizes as follows his letter to us:

**Department of Cauca Valley** Situated in western Colombia, the Department of Cauca Valley has an area of 7,960 square miles and a population estimated at 325,000. Its topography and soil have made it a rich agricultural region producing coffee, sugar, tobacco, plantains, cotton, rice, cacao, bananas and corn. Large areas of excellent pasturage sustain an important cattle and live-stock industry, while extensive coal deposits of good quality, and other minerals, complete the Department's varied and well balanced supply of natural resources.

**Purpose** The proceeds of these bonds will be used: (1) to construct certain public works, including highways, part of which are already in course of construction; (2) to finance in part the construction of the Cali-Buenaventura highway.

**Security and Pledged Revenues** These bonds will be the direct external obligations of the Department of Cauca Valley and will be secured: (1) by a lien and charge on all revenues derived from the registry and mortgage tax and the tobacco tax, on 90% of the revenues derived from the foreign liquor tax, and on 80% of the revenues derived from the slaughter tax and the liquor tax or from the sale, manufacture or monopoly of liquors or grant of franchises in connection therewith; subject only to a lien and charge in favor of the Department's 7 1/2% loan of 1926 upon certain of these revenues, namely, all those derived from the tobacco tax and 80% of those derived from the slaughter tax and the liquor tax or from the sale, manufacture or monopoly of liquors or grant of franchises in connection therewith or otherwise from the revenues of the corporation owning the Cali-Buenaventura highway, and 600,000 Colombian dollars of the capital stock of that corporation. Until these securities are pledged, cash at least equal to the amount payable by the Department from the proceeds of this issue for said securities will be held by the Trustee in lieu thereof.

For the fiscal year 1927-28 revenues pledged to the service of this loan, after deduction of all existing prior charges, amounted to \$3,092,424 or over 7.33 times service requirements of this loan.

All amounts in U. S. dollars made at par of exchange, \$9750 per Colombian dollar. Present quotation Colombian dollar \$97.15.

We offer these Bonds when, as and if issued and received by us, and subject to approval of counsel for the Bankers, Messrs. Curtis, Mallet-Prevost, Colt and Mosie, and for the Department, Messrs. Hardin, Hass, Eder and Freschi.

It is expected that temporary bonds or interim receipts will be deliverable in the first instance.

Price 96 and accrued interest to yield over 7.38%

# Flyers Drop Flowers for Crash Victim at Mines Field

## DARING AIRMEN IN NEW THRILLS

"Sea Hawks" Perform After Tribute to Dead

Lieut. Williams Was Native of Moab, Utah

Navy Pilot Hurt in Fall of Plane Improves

(Continued from First Page)

Founders second and Lieut. H. B. Secker, third, of the flying force. One plane from the observation group took the air first, followed by nine ships of the pursuit group and six "Kestrel" bombers, which completed a flight here from Langley Field, Va.

The maneuvers were simulations of the co-ordination of three branches of the flying force. One plane from the observation group took the air first, followed by nine ships of the pursuit group and six "Kestrel" bombers, which completed a flight here from Langley Field, Va.

The bombers maintained an altitude of approximately 2500 feet while the pursuit planes flew several thousand feet above them as protection from enemy attack planes. The observation plane was still higher for the purpose of re-

## MAYOR DECREES JUMPING BAN

Demonstration Leap for Young Son Strains Executive's Back

"Daddy, show me how you did the standing broad jump at college," said Edward Oryer to his father, Mayor Oryer. "All right, Edward, here goes," said the Mayor, who was at play in the back yard of his Shatto Place home with his son.

The Mayor did the standing broad jump and as a result was nursing strained back muscles yesterday. He was at his office at the City Hall, but moved about rather slowly and painfully, and has sworn off standing broad jumps for a while.

As a student at the University of Michigan, Oryer held the record of 8 ft. 4 in. for the standing jump without weights.

Reporting by radio the effects obtained by the bombers. The pursuit group also simulated an attack on the bombers, diving toward them from an altitude of approximately 5000 feet. Replacing "The Three Musketeers" on the program, Lieut. Schoenlein, Klein and Kenyon of the First Pursuit Group, performed thrilling diving and turning ma-

## He Finishes Second in Coast Air Race

Charles F. Dyer Flies in Lincoln Paige

Aviator who makes splendid time in speed contest between San Francisco and Los Angeles in featured event of National Air Races.

## STUNT FLYER REPEATS

Al Wilson repeated his performance in the Curtiss 1910 pusher type plane, flying at low altitudes and stunting directly in front of the grand stands. The "Dill Pickle," most recent development in aircraft construction by the California Institute of Technology, was in the air at the same time and provided amusement as it dodged Wilson's plane.

Parachute jumps by navy enlisted men and Archie Atherton, parachute instructor, were interspersed throughout the program. Lieut. Woodring and Corneliuss, the flying companions of Lieut. Williams, their leader, did not appear in the formations or for exhibition flying. Their chief died early yesterday morning following the crash of his plane Monday while he was righting his ship after flying down directly in front of the grand stand.

**WILLIAMS FROM UTAH**  
Lieut. Williams was 25 years of age and was appointed to the United States Military Academy from his home at Moab, Utah. He was graduated from the service school in 1924 and was assigned to the army flying school at Brooks Field, San Antonio, Tex. He was graduated there and then was ordered to receive advanced training at Kelly Field, where he completed the course in 1925.

An assignment to the First Pursuit Group at Selfridge Field, Mount Clemens, Mich., followed and he remained there until June of this year when his squadron, the Ninety-fifth, was transferred to Rockwell Field at San Diego. This was his first serious flying accident. His father is J. H. Williams of Moab, Utah.

**OFFICIAL TIME**  
The official time for the winners of the Class A transcontinental air race from New York to Mines Field was announced last night. The six places and time were computed on telegraphic reports from officials at Columbus, O., covering both east and west flights. The names of the winners, city, type of plane, and flying time, as announced follow:

First, Earl Rowland, Wichita, Kan., Cessna A: 29hr. 14m. 6s.  
Second, W. H. Emery, Jr., Bradford, Pa., Travel Air: 29hr. 48m. 29s.  
Third, Robert Duke, Pittsburgh, Pa., American Moth: 29hr. 5m. 7s.  
Fourth, Theodore W. Kenyon, Boston, Mass., Challenger: 29hr. 29m. 56s.

## AIR LINERS SOON WILL LINK COASTS

Keystone Company Building Large Passenger Planes for Cross-Continent Trips

Four twenty-passenger monoplanes, the largest ever built in America, equipped with private compartments and sleeping berths for night flying, to be used between New York and the Pacific Coast, are now near completion at the factory of the Keystone Aircraft Corporation, Bristol, Pa., according to an announcement made yesterday at the National Air Exposition by Edgar N. Gott, president of the company.

Construction of the aircraft has been kept secret until yesterday, when Col. Charles A. Lindbergh flew to Mines Field from Santa Barbara for a conference with Gott on the new monoplane.

The plane has been named the Patriotic, and is powered by three Wright Cyclone engines developing 1575 horsepower, giving the craft a speed of 155 miles an hour, a cruising speed of 130 miles and a service altitude of 18,100 feet.

In commenting on the new monoplane, Lindbergh said: "These large, fast transport planes will be the ultimate means of rapid travel for the public. This new monoplane with its advanced features is exactly what America needs to build and hold public confidence in flying."

The new plane has been placed at the disposal of Col. Lindbergh for the initial test flights.

## HOOVER LAUDS PLANE RACERS

Declares Flights Show Long Steps in Aviation

Holds Air Progress Justifies Private Development

Calls Commercial Service Growth Amazing

WASHINGTON, Sept. 11. (Exclusive)—Herbert Hoover, candidate for the Presidency, deviated today from his usual role in his conferences with the press and permitted the newspaper men to quote him on the great improvement in commercial aviation in the United States, now climaxed in the exhibition at the National Air Races at Los Angeles.

He said: "I think we ought to congratulate the winners of the transcontinental air derby, which marks an important stage in our flying progress. Twenty-two of the thirty who started the race have completed it and the others have met with no accidents. The result is an indication of the increasing rapidity and stability of the airplanes we are building in this country."

"The astonishing progress of aviation in this country during the last three years fully justifies the policy by which we undertook to stimulate the private development of aviation in the United States instead of granting subsidies as has been done in Europe. We now have between 4000 and 5000 planes in commercial service and our manufacturing capacity has increased in the last twelve months to such an extent that our plants are capable of producing 5000 planes within the next year."

"Our commercial planes are covering more miles a day in commercial work than those of any two countries in Europe. Practically all of our commercial flying companies are at least paying expenses. That is an astounding performance for a new transportation industry." Mr. Hoover's interest in aviation became more than a mere hobby when the aeronautics bureau of the Department of Commerce was created last year. With the Federal regulation of a vitally important business enterprise under the wing of his own department, he rendered every possible assistance in expanding the bureau to cope with the vast problem confronting it. The administrative experience of the then Secretary of Commerce, applied to the organization of this new governmental unit, is in no small measure responsible for the rapid progress made by the aeronautics bureau as an aid to the development of commercial aviation.

## Air Officials to Confer Again on State Plane Code

The second aircraft legislative conference of representatives of various governmental bodies and leading aircraft carriers in California will be held at the Alexandria Hotel tomorrow, to consider a preliminary report of a committee appointed to outline problems of State legislation and regulation of air carriers. The conference grew out of a study of aircraft operation and regulation sponsored by the State Railroad Commission. After its engineers made surveys of the situation, the commission called the first conference some weeks ago. About sixty representatives of the industry and the State attended.

After a thorough study of aviation and its problems is completed by the conference members, they will decide whether State regulation is necessary or advisable, and if so, what steps the Legislature should take to bring it about.

## YOUTHS FILM AIR THRILLER

Laurels of the big film and camera men of Hollywood are being threatened, it appears.

Adapting the National Air Races now taking place at Mines Field to their particular use, Harold H. Flick and Norman C. Dimick, each 18 years of age, of Portland, Or., are filming the final touches to what they hope will be a stupendous production of thrills and adventure.

The two youths, in a decrepit flivver, arrived here from Portland several days ago and since then have been "shooting" scenes with their sixteen-millimeter motion-picture camera. Flick, cameraman, and Dimick, author and cameraman, and Dimick takes the title of director. The film, which will be titled "Sky-scrapers," revolves about a transcontinental air race. It is expected to reach a length of 2400 feet.

According to the boys, Miss Freda Stader, 16 years of age, daughter of a Portland municipal judge, will be the leading lady. When it is completed they expect to enter it in a national amateur motion-picture contest.

## CRASHES CHARGED TO STUNTS

Aviation Chief Says They Should Not Reflect on Commercial Flight Safety

Clarence M. Young, director of aeronautics, Department of Commerce, addressing a joint gathering of the Los Angeles and Inglewood Rotary clubs yesterday, after which the gathering adjourned to the National Air Races at Mines Field, emphasized that the two serious accidents at the field should not in any way reflect upon the safety of commercial aviation.

He pointed out that the intricate evolutions that resulted in disaster for two of the crack flyers of the air service, although part of their education and practice in attack and defense, and, of course, extra hazardous, are tests not required in commercial or transport flying.

The speaker referred to the crash-up of Lieut. G. H. Hasselman's plane on Sunday, and the crash Monday which resulted in the death yesterday morning of Lieut. J. J. Williams, one of the "Three Musketeers" of the Army. Mr. Young, before continuing his address, then asked the Rotarian assembly of some 300 to rise and pay a silent tribute to the dead officer, which was done.

George Brown, president of the Inglewood club, welcomed the guests, and then turned the gavel over to James E. Shelton, vice-president of the Los Angeles Rotary Club, who presided through the program provided by his organization.

## THE LANCER

(Continued from First Page)

beneficial; the new houses now going up are more carefully and beautifully planned.

This is especially to be seen along the south coast. The houses going up along the cliffs from Balboa to La Jolla are so lovely that it is like a voyage along the Mediterranean.

And just through the hills the inland valleys redolent with the most interesting traditions of old-time California.

## Flyers!

No one appreciates correctly the true and safe lenses more than the aviator understanding his needs, we maintain stocks of leading American and foreign goggles.

## At Booth 163 Mines Field

you will find the new ZEISS anti-glare goggles—and over 20 types in a half-dozen different makes of flyers' eye-protectors. Lenses and parts, too. Prices surprisingly low.

Kodaks, Binoculars, Films, Glasses at Booth 165.

## Education

### FEAR OF DEATH

Assistant Secretary Says Distinguish Between

The real reason why more people are afraid they might be killed in business may as well realize this and the Secretary of the Navy Warmer, assistant Secretary of the Society of Education, "the industry has plenty of capital fear."

The best way to overcome this fear is to give constant evidence of safety. The people jump all the time, but they are not. They do not differentiate between the nervous and the reliable means of air travel and the class that includes reckless and unlicensed persons flying.

# Education of Public on Safety of Air Travel Urged by Warner

## “Baby Bullet” Excites Wonder in Mines Field Test

Secretary Says People Must be Taught to Distinguish Between Types of Flying

The fact that more persons do not travel by air is because they are not properly educated on the subject, Assistant Secretary of the Navy Warner said yesterday before the national meeting of the Society of Automobile Engineers. “And,” he continued, “the industry has plenty of reason and evidence on its side in its old and obsolete planes. When a stunt flyer, an experimenter, a tester or some daring, but incompetent person flying an eleven-year-old plane has a wreck—too many persons just mark it up against all air travel.”

**BECOMING AIR-MINDED**

“Even the people of Europe are not air-minded more than we are coming to be—most certainly not more than Los Angeles now is.”

Warner spoke after E. F. Warner, chairman, had said that some of the greatest minds of the country are studying to find out how to make this country more air-minded. Lawrence H. Byers of the Guggenheim Fund for Promotion of Aeronautics told the engineers that the organization is making an intensive study and experiment in meteorology for air-travel purposes between Los Angeles and San Francisco. Already the service has been worked out so well that “with few exceptions pilots have found the weather just as we predicted.” The organization hopes to have the United States Weather Bureau take over the service in about two years.

**STANDARDIZATION**

G. F. Clarkson, general manager of the society, told the engineers: “Mass production is not the child of sales. It is the progenitor of sales.”

Clarkson, Warner, W. O. Naylor and others made strong talks favoring standardization in plane manufacture so that mass production can be effected and plane costs lowered and the machines be made more stable. Because of the primary stages of development, however, it was admitted that the “industry must wait with some obstacles along the line.”

L. E. Lighton and W. M. Johnson brought out that only about half the airports are equipped for night landing.

A. E. Humphries of the Pacific Air Transport said the general public has little idea of the expense of keeping up airplanes.

“Our general policy,” he said, “is that a plane shall be under inspection on the ground longer than it is in flight.”

**QUICK SERVICE DUE**

He said that in a few months his organization will provide air-mail service of such proportions that in every major city from San Diego to Seattle it will be possible to post mail at night and have it delivered in any other major city the next morning.

Twenty-eight contract air lines are being operated today in the United States and more than 20,000 miles are flown daily in the service,” he said.

E. J. Shields, general passenger agent of the Western Air Express, said that although air tariffs now are high, yet they will be reduced constantly as planes cost less and that in spite of the high cost, travel by air even now has commensurate equal to the outlay.

**METAL AIRCRAFT**

At the evening session, which was devoted to a discussion of metal aircraft, Lieutenant-Commander L. B. Richardson of San Diego Naval Air Station said that the naval air service has encountered a serious problem in the rapid corrosion of duralumin caused by salt water. He said there have been instances in which corroded duralumin could be broken off with the fingers from

Tiny Aircraft Astonishes Throng of Spectators

A. B. Heath and his “Bug,” which he calls Baby Bullet, created a sensation at Mines Field when he skimmed along the ground at a rate of 125 miles per hour in this smallest of airplanes which he designed and built at his home in Chicago. The plane measures eighteen feet between wing tips and is powered by a two-cylinder motor.

planes which had been in service only one year. He presented some of the means which the Navy has adopted to combat this one flaw in what is otherwise the best metal so far devised for airplane construction.

H. V. Thaden, vice-president of the Thaden Metal Aircraft Corporation, and George E. Prudden, managing director of the Prudden-San Diego Airplane Company, both departed from their prepared addresses later to discuss the matter of duralumin corrosion. While they admitted that it is a serious factor in Navy work, they asserted that such deterioration is practically negligible in planes used for inland flying.

Commander F. P. Wilson, chief of staff of the aircraft squadron of the battle fleet, presided at last night's session.

**Miss San Diego to Be Guest at Air Races Today**

SAN DIEGO, Sept. 11. (Exclusive)—Carrying the greetings of San Diego to the famous flyers and aircraft manufacturers attending the National Air Races at Los Angeles, Miss Winifred Stevens, proclaimed “Miss San Diego” by Mayor Clark, will fly to Mines Field in a Madgux air liner tomorrow afternoon.

On alighting from the plane “Miss San Diego” will be escorted to a position in the reviewing stand by Cliff Henderson and other officials of the National Air Races. Miss Stevens, who is 17 years of age, was selected from a group of more than sixty young women contestants. She is a daughter of Mr. and Mrs. George F. Stevens of 3075 Euclid avenue, and a graduate of the senior high school.

## HEROES OF AIR WILL DANCE

Famous Flyers and Military Figures at National Races to be Honor Guests at Ball

Eleventh-hour arrangements will be made today for the Famous Flyers and Military Ball to be given tomorrow evening at the Biltmore, Harry Wetzel, entertainment chairman for the National Air Races, announced last night. Celebrated pilots and distinguished officers of all branches of the national defense services here for the races, will be guests of honor. The public is invited.

Leaders in society circles here are co-operating to make this aviation ball the bright social function of the big air meet. Being held on the evening of the day the nonstop pilots finish in their dash from New York City, among the guests of honor will be the flyers in this race. These include, in part, Arthur C. Goebel, William Thaw II, and George Haldeman. The feminine guest of honor will be Ruth Elder, trans-Atlantic aviator, whose plane, American Girl, was piloted by Haldeman.

Patrons and patronesses who will welcome the guests are Mr. and Mrs. William C. McKee, Mr. and Mrs. Fred Niblo, Mr. and Mrs. Theodore T. Hull, Mr. and Mrs. Harry H. Wetzel, Mr. and Mrs. D. E. MacDaniel, Mr. and Mrs. Robert J. Pritchard, Dr. and Mrs. T. C. Young, Mr. and Mrs. Dudley M. Steele, Mr. and Mrs. J. P. Jeffries, Mr. and Mrs. W. L. Stewart, Jr., Mr. and Mrs. John Bowers, Mrs. Leland Atterton Irish, Dr. and Mrs. J. J. Carter, Maj. and Mrs. C. O. Moseley, Mr. and Mrs. Donald Douglas, Mrs. Emma Grassell, Mrs. Fern G. Wilson, Mr. and Mrs. E. A. Dickson, Mr. and Mrs. William May Garland, Mr. and Mrs. William T. Kester, Mr. and Mrs. J. L. Madgux and Mrs. E. P. Johnson.

**Wallace Beery Gets Fine Plane**

Wallace Beery is the owner of a new Travel-Air cabin monoplane with a 435-horsepower Wasp motor. The actor purchased the plane yesterday. It is specially fitted inside with accommodations for six passengers and is equipped for night flying. The plane was bought for \$19,500 and is one of the first ships sold at the aeronautical exposition. Beery has been the owner of a smaller plane.

## Day's Program for Air Meet

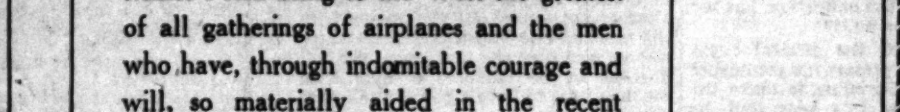

The program today at the National Air Races at Mines Field is as follows:

- Event No. 1, 1:15 p.m.—Band concert.
- Event No. 2, 1:30 p.m.—Special Event No. 1. Race for pilots of Third Attack Group. United States Army attack type planes only, for Mason M. Patrick trophy. Six miles; six laps around a ten-mile course.
- Event No. 3, 2:00 p.m.—Exhibition of latest improved model flying locomotive; also an exhibition of early type pusher bi-plane piloted by “Dare Devil” Al Wilson.
- Event No. 4, 2:15 p.m.—Special Event No. 2. Race for pilots of First Pursuit Group. Race for pursuit type planes only, for Lt. Col. J. C. Mitchell trophy. Six miles; six laps around a ten-mile course.
- Event No. 5, 2:30 p.m.—Special Event No. 3. Race for pilots of United States Navy Vought bi-plane in spectacular formation. Grand features of the day.
- Event No. 6, 4:15 p.m.—United States Navy Vought bi-plane in spectacular formation. Grand features of the day.
- Event No. 7, 4:45 p.m.—Formation flying by Observation Squadron No. 4, United States Marine Corps.
- Event No. 8, 5:00 p.m.—Exhibition by Al Wilson in Curtiss pusher, also stunts locomotive in action.
- Event No. 9, 5:15 p.m.—Communication of parachute diver. These three events will be held in the afternoon.
- Event No. 10, 5:30 p.m.—Air Meet.
- Event No. 11, 5:45 p.m.—Communication of parachute diver. These three events will be held in the afternoon.
- Event No. 12, 6:00 p.m.—Air Meet.
- Event No. 13, 6:15 p.m.—Communication of parachute diver. These three events will be held in the afternoon.
- Event No. 14, 6:30 p.m.—Air Meet.
- Event No. 15, 6:45 p.m.—Communication of parachute diver. These three events will be held in the afternoon.
- Event No. 16, 7:00 p.m.—Air Meet.
- Event No. 17, 7:15 p.m.—Communication of parachute diver. These three events will be held in the afternoon.
- Event No. 18, 7:30 p.m.—Air Meet.
- Event No. 19, 7:45 p.m.—Communication of parachute diver. These three events will be held in the afternoon.
- Event No. 20, 8:00 p.m.—Air Meet.

## THE Aeronautical Exposition and National Air Races now being held at Mines Field bring to the West the greatest of all gatherings of airplanes and the men who have, through indomitable courage and will, so materially aided in the recent achievements which have gained for this particular branch of activity the admiration of the entire world.

It is an event worthy of commendation, and this firm and its personnel join the city and the nation in paying sincere tribute.

The store of Alexander & Oviatt likewise progresses with a growing community. Correct apparel for aviation wear may now be viewed in the windows of this shop.

## JOSEPH KREUTZER CORPORATION ANNOUNCES

# A COMPLETE AIRCRAFT CENTER

THE new Aircraft Division of Joseph Kreutzer, Inc., will play an active part in making Los Angeles the aviation headquarters of America. An excellent airport has been acquired midway between Mines and Clover Fields. Plans call for the construction of a modern aircraft school, repair station, warehouse and factory. This is not a stock-selling proposition. The public is invited to watch the progress of this important civic development.

## School and Training Camp

Based along the latest approved lines, the school will be operated on a basis of 3 periods of 8 weeks each—carrying the student through complete training in 60 hours of flying, meteorology, navigation, map reading, cross-country flying, general motor and plane repairs, and a thorough course in the fundamentals of aviation—enabling the student, if physically qualified, to obtain a limited commercial license upon completion of his course. Bar racks, mess hall, students club, etc., will all be provided at a very reasonable price.

## Transport

Planes provided for sightseeing, picture production, aerial advertising and cross-country taxi work.

## Repairs

Facilities for complete repairing and overhauling—engine work, wing and fuselage repair, covering, doping, etc. A large stock of parts and used motors will be maintained. Plans are under way to provide rental engines while the owner's is being repaired.

## Field Storage

Planes call for storage room for 50 planes within a year's time. Hangars using single or multiple units for rent by month, day or week—including servicing of planes, etc.

## Warehouse

A huge storehouse is contemplated in which a full line of accessories, parts and airplane equipment will be carried and distributed from the field.

## Factory

A modern factory will be in production within a year, with a capacity of one plane a day—under the supervision of A. J. Edwards, formerly of the Ryan Air Lines, later the H. P. Mahoney Aircraft Corporation, and the man that sold “Spirit of St. Louis” to Colonel Lindbergh. Products will include a small training plane, two place, a four-place dual-control cabin monoplane with tri-motor, an 8-place, dual-control tri-motor cabin monoplane for passenger service.

For further information concerning training courses, factory production, etc.

See Booth A. C. 164 at the Show

# Trojan and Bruin Football Players Returning for Opening of Practice on Saturday

## TWO WORKOUTS FOR ATHLETES

Local Gridlers to Drill in Morning and Afternoon

Duffield Gains Weight After Summer at Beach

Quarterback Position Causes Spaulding Worry

(Continued from First Page)

that many of the returning students will be forced to spend part of the day registering.

Marshall Duffield, the former Santa Monica streak, showed up at Southern California yesterday, fit as a fiddle. Duffield broke his leg as a freshman last year and didn't have too much life during spring practice. Some of the parlor coaches have suggested that Marshall, because of his youth, be kept out a year, but Jones says he'll use Duffield and use him plenty if he's fit to annoy the opposition. The blond ball carrier needs a little more ginger than he displayed in spring practice, however, before he'll be ready for varsity employment. His leg probably held him back then, but he ought to forget that member now and out loose with everything he has. Duffield is the best all-around performer of the Trojan back, being able to punt, pass and run the ball. He is a candidate for the quarterback position. Duffield spent the summer at San Clemente and appears to have put on weight.

Lee Calland says it's all right with him if Joe Mortenson, the big basketball player, decides to take another fling at the gridiron. Generally coaches aren't so keen to have their star athletes branching out into other fields. Dean Cromwell has trouble sleeping when any of his track performers threaten to indulge in football or basketball.

Mortenson reported for football last fall, but quit after a week or so, deciding to center his attention on basketball. Four months of that developed the big fellow into a great athlete. He weighs 185 pounds and with the fighting heart which he has exhibited on the basketball court ought to fit into the scheme of things under Jones. At any rate, Jones will make things interesting for the other halfback candidates if he decides to turn out, and he's said that he'll be on hand Saturday morning.

The quarterback berth is bothering Bill Spaulding just about as much as it is Jones. The Bruin mentor has three likely-looking candidates to succeed Scribner Brimbleby, last year's captain. They are Buddy Forester, from last year's freshman outfit, and Jerry Russell and Ted Simpson, both of the varsity.

## Austin Clapp to Be Feted

Austin Clapp, 17-year-old Hollywood High School youngster, the only west coast swimmer to make the championship American Olympic team, will be honored at a dinner arranged by fellow-members of the Hollywood Athletic Club in the Circle H home, tomorrow evening. Clapp leaves for Stanford next week, after piloting his Hollywood High School swimming team to championship honors for the last three years.

There was some talk of shifting Bert La Buerie from halfback to quarterback, but Bert is playing his last season and it would hardly be worth while to make the change for one year.

Forester weighs only 155 pounds, but is very fast and hard to bring down. Russell and Simpson are only slightly heavier. The former was a halfback last fall, the latter a fullback. Spaulding has Capt. Joe Fleming, Earl Fields and La Buerie for the other backfield positions and it will be interesting to watch the fight between Forester, Russell and Simpson for the signal-carrying berth.

Spaulding will probably develop a new center this fall and the honor may fall on the shoulders of Maurice Goodstein, a young man who used to play at Poly High. The two returning varsity men, Epstein and French, will have their troubles keeping Goodstein off the team. Spaulding may use Goodstein at guard if French and Epstein are able to handle the center spot; otherwise the ex-Poly boy is likely to get the call.

## Tunney Took Four Dollars for First Go

PARIS, Sept. 11. (AP)—A hundred francs—about \$4—which was lots of money in those days—was the amount of the first purse collected by Gene Tunney in a prize fight, he revealed today. The purse, he added, was not proffered by Mr. Tex Rickard.

The statement was made in the course of an eighteen-minute talk before the American Club luncheon at which more than 300 guests were present. The former champion talked of peace and war for full thirteen minutes out of eighteen and then spoke more briefly on the subject of boxing, defense and what brought him fame and fortune.

PAUL LOWEY

THOSE ATHLETICS

BUMPED again. The Athletics may win the American League pennant, but apparently it won't be because they can beat the best team in the league. They took it on the snout again yesterday just like they got kicked in the pants twice Sunday. The Yanks have their little animal tethered.

And all the experts who have been writing about abdominal fortitude and "it" and stomach, the absence of which contributed, it is alleged, to the Athletics' loss of three straight to the champs, are vindicated.

Today is another day and Connie Mack's boys might pick up a few stray crumbs of comfort by spearing the last fracas the teams will play this year, but even this last-minute flourish—if it develops—will not wipe out the memory of the Athletics' spineless play in the first three games.

## LEWIS RELUCTANT TO SIGN FOR TITLE MAT BOUT HERE

Between his efforts to keep Joe Malowicz from doing his mat training at Setz Zoo, and getting Billy Sandow, manager of Champion Ed (Strangler) Lewis to agree on the percentage the title-holder should receive for defending his crown here October 3 against the winner of the finish bout at the Olympic a week from tonight, Promoter Lou Daro is having more than his share of trouble this week.

Lewis, according to reports, is not very anxious to meet either Nick Lutz or Malowicz, who clash in Wednesday night's feature event, at this time, unless he is generously paid for taking the risk. Malowicz has been on the Coast for more than two months and is in wonderful condition as the result of his outdoor training. Lutz is just rounding into the shape he was in for his first battle with the title-holder here, and looks tougher now than ever before.

Sandow suggested that the price for the title match be scaled to a \$8 top, but Promoter Daro has turned down the proposal. Daro declared he was confident that he and Sandow would run out their little differences before the end of the week, and obtain the champion's signature to a contract calling for him to defend his title here October 3.

Lutz and Malowicz have, between them, disposed of every title-contender in the game, and their mat battle Wednesday night is looked upon by the heavyweight wrestling of the country as being for the "uncrowned heavyweight championship of the world." A

record house for a near-championship match is looked for.

Malowicz is reported to have worked out at the Setz again yesterday, which has caused the promoter to consider having an injunction issued against the "Panther" to keep him from taking such risks so soon before a big match.

## BERT COLIMA FAVORED TO CLEAN UP ON BURN

Oakland Johnny Burns has been showing so much stuff in the everyday workout at the Manhattan Gymnasium that his stock has taken a big boost with the boxing fans. Burns and Bert Colima, the Mexican champion, are the headliners at the Hollywood American Legion Stadium Friday night.

Due to the fact that Colima has never lost a fight at the Legion Stadium, he has been made favorite to beat Burns. Colima has plenty of confidence when boxing at the stadium. He looks like a champion and acts like one.

The Pacific Coast middleweight title will be at stake as Burns and Colima are making 153 pounds for the fight. Burns came here from Oakland to try and lift the title which has been in Southern California for years.

There is some talk of Colima being matched with Ace Hudkins if the Wildcat will consent to an indoor fight. Colima believes he can beat Ace at 160 pounds on the day of the fight.

Backing up the Colima-Burns fight are some pretty fast looking preliminaries. Flash Hastings and Ray McIntyre are in the semi-up. This pair are among the best bantamweights outside of the event class. Hastings is rugged and a hard puncher, but McIntyre is smart, fast and a good boxer.

Others on the card are Clayton Gouyd and Nick Antonelli in the special. Antonelli has been a big card in New York, where he recently turned professional. Well

## Athletic Fans Still Retain Title Hopes

PHILADELPHIA, Sept. 11. (P)—Despite the fact that the Athletics still are running second to the Yankees for the American League pennant, Philadelphia fans are clamoring for world series seat reservations.

So numerous are the applications that the management of the Athletics today inserted a notice in the newspapers that no application for world series seats would be accepted before the 20th inst.

## BUCS BUMPED

CHICAGO, Sept. 11. (P)—Pat Malone had the best of five Pittsburgh hurlers in a free-hitting contest today and the Chicago Cubs defeated the Pirates 9 to 3 in the final game of the season between the two teams.

The Pirates got to Malone for eight hits, but four of them were bunched in the third inning, when the former American Association strike-out ace faltered long enough to allow three runs to cross the plate. Thereafter, however, he set the invaders down in rapid order with the exception of the fifth and eighth, when brilliant support got him out of trouble without any runs scoring.

PHILADELPHIA, Sept. 11. (P)—The Phillies and Brooklyn divided their second successive doubleheader today. The Robins captured the first game, 3 to 2, but lost the second, 4 to 3, when Freddy Leach, Phillies' first baseman, poked out a home run with one on in the ninth inning.

PHILADELPHIA, Sept. 11. (P)—The Phillies and Brooklyn divided their second successive doubleheader today. The Robins captured the first game, 3 to 2, but lost the second, 4 to 3, when Freddy Leach, Phillies' first baseman, poked out a home run with one on in the ninth inning.

# RUTH'S FORTY-NINTH HOMER CONQUERS MACK SQUAD, 5-3

(Continued from First Page)

The ninth inning saw Ty Cobb Eddie Collins and Wally French stride up in turn, first line reserves of the Boston Athletics. The first two of these names, as names alone, would have been enough to frighten the average young pitcher out of the box as recently as two years ago, but not Johnson today.

The young Floridian got Ty on a host to Koenig, Eddie on a foul fly to the same gentleman, of the defense and French on a weak pop to Meusel. The Yankees had won, and led the worried Mackmen by two and one-half games.

FOURTH GAME TODAY All that remains is that fourth game of this now not-so-crucial engagement tomorrow and the final rally through the West—fifteen games for the Yanks in the occident and thirteen for the Macks.

Until the eighth inning Bill Robert Meusel gave the Yankees a firm grip on the Yankees. Six which now has cost him six of the seven games he has lost this season. Meusel was headed along the primrose path, reaching for his twenty-third victory and his fifteenth straight.

The Athletics at the outset gave him a two-run lead. Johnson hit Hase with one gone in the first, and Cochrane thundered forth the first of his three hits—a soaring triple over Bob Meusel's head. Cochrane himself scored a moment later on Simmons' sacrifice fly to Ruth.

A'S ADD ANOTHER RUN Another Philadelphia run was added in the fourth. The bases were filled on Cassella's fumble of Fox's grounder, Miller's infield single and a pass to Dykes. Fox then rushed home on Boley's sacrifice fly to the Babe. That finished the A's for the afternoon, although they made a brave bid in the eighth on singles by Cochrane and Fox.

PHILADELPHIA, Sept. 11. (P)—The Athletics at the outset gave him a two-run lead. Johnson hit Hase with one gone in the first, and Cochrane thundered forth the first of his three hits—a soaring triple over Bob Meusel's head. Cochrane himself scored a moment later on Simmons' sacrifice fly to Ruth.

PHILADELPHIA, Sept. 11. (P)—The Athletics at the outset gave him a two-run lead. Johnson hit Hase with one gone in the first, and Cochrane thundered forth the first of his three hits—a soaring triple over Bob Meusel's head. Cochrane himself scored a moment later on Simmons' sacrifice fly to Ruth.

All this while Bob Grove had the Yankees performing like trained pigs. Combs' single in the first and Koenig's infield smash in the third were all the champions had to show for hits in the first six rounds.

The seventh batter saw Grove get a vigorous "feet"—and the Yankees one run. Every batter in the inning hit the ball on the nose save only Johnson, whom Miller Huggins wisely, as it proved, permitted to bat for himself with two out and a potential run waiting upon third base.

Meusel blazed a single through Boley's legs, but Mr. Bolenaki next headed Lazzeri's hard smash and forced the lanky one at second. Cassella pounded a double to center, sending Lazzeri to third, whence he scored as Boley fielded Paschal's hard drive, and threw him out. Johnson ended it with a pop to Bishop.

GERHIG TIES SCORE The Yanks eighth was opened by a pass to Combs, always a bad sign for any pitcher. The colonel reached second on Koenig's infield single and raced on to third when Dykes followed with a wild throw past Fox. Grove then deftly inserted a wild pitch, scoring Combs and sending Koenig to second. Gerhig followed with a single and raced madly to second as Simmons threw to Cochrane in a vain bid to cut off the flying run.

This set the stage for Ruth, and the game was wrecked as related. The victory was young Johnson's fifth out of six against the Athletics. Score: PHILADELPHIA 5, NEW YORK 3.

# Cochet to Play Mixed Doubles With Miss Wills in Tourney Here

## NET CHAMPIONS TEAM TOGETHER

Rated Best Mixed Doubles Team in World

Have Not Appeared Together This Season

Los Angeles Tennis Club to Stage Net Classic

The strongest mixed doubles team ever seen in action, made up of Miss Helen Wills of Berkeley and Henri Cochet of France will play through the Pacific Southwest championships, sponsored by the Tennis Patrons' Association of Southern California, the 28th inst. to October 7, next, at the Los Angeles Tennis Club.

Miss Wills is not only the recognized queen of the tennis world today, but is generally considered one of the strongest women players of all time. Cochet today stands alone in the tennis world. His straight-set defeat of William Tilden II was one of the most crushing defeats the American has ever suffered. For three years Cochet's star has been climbing in the tennis universe, until today he stands alone at the top. Tennis today is considerably faster than it was ten years ago, and so it is that this team made up of Miss Wills and Cochet is considered the fastest team ever produced.

This year has been a strange one in tournament competition. Neither in Europe nor in the United States have Miss Wills and Cochet appeared in the same tournament. Consequently both are looking forward to the coming event at the Los Angeles Tennis Club, where they will team together as partners.

With Cochet will come two fellow-members of the French Davis Cup team. The complete British Davis Cup team of four players will be seen in action on the courts of the tennis club during this tournament. Three members of the United States Davis Cup team, including one alternate, have sent in their entries up to this time.

Aside from the color of the appearance of Davis Cup players the tournament will have the class of a national championship as far as women's play goes. Seven of the eight players seeded in the women's national have entered. Only Mrs. Molla Mallory will be missing. Those who will be here include Miss Wills, Miss Helen Jacobs of Stanford, Miss Charlotte Chapin of Springfield, Miss Midge Gladman of U.S.C., Mrs. Corrine Henry of Santa Monica, Miss Penelope Anderson of Richmond, Mrs. May Sutton

## DOEG WINS, GORCHAKOFF LOSES IN TENNIS PLAY

(Continued from First Page)

nancy yesterday. Harris Coggeshall, the steady Ivan, and Gregory Mangin of Newark, N. J.

Henry W. Austin was the sole surviving Englishman and Jack Crawford alone remained to uphold the banner of Australia.

Left had an easy assignment today and walked through Elmer Griffin of New York, to the tune of 6-0, 6-2, 6-3, but in the third round he finds himself pitted against Bousquet of France.

By mutual agreement Allison and De Buzet omitted the usual intermission after the third set and played right through. The strain told far more on Allison than it did on De Buzet, who with the machine-like play of another and more famous name, drove ahead inexorably to victory.

Young "Junior" Coen, protégé of Bill Tilden and Davis Cup team member at 16, produced a flurry of excitement by threatening to win the first set from the great Cochet. He ran into the lead at five games to three with the aid of some spectacular placement drives before Cochet smothered him with the set. Bousquet, although 20 years of age, was at his brilliant best in his match with Jones, who is seventh ranking American player.

One of the best of the matches decided on the outside courts was that in which Mangin eliminated E. O. Cummings of Australia, one of the foreign seeded entries, 6-3, 6-2, 6-4. Crawford, another seeded Australian, narrowly escaped a similar fate in the match which he won from Ben Gorchakoff, Occidental College player from Los Angeles, 6-3, 7-5, 6-3, 7-5, 6-1. Feature matches announced for

Bundy of Santa Monica and Miss Edith Cross and Mrs. Anna Harper of San Francisco.

EDWARDS TO TACKLE MEXICAN BOXFIGHTER

Mexican Jack Dempsey, who chased nearly every other Mexican 175-pounder into the woods until he hurt his hands several months ago, has been brought out of his forced retirement by Carlo Curtis and will face Carl Edwards at the Main-street Athletic Club next Saturday night.

The Dempsey-Edwards brawl replaces the scheduled Al Fay-Albert Prision heavyweight scramble. Jack Kearns, manager of Fay, is leaving tonight for the east, taking Fay, Mackey Walker and Teddy Hayes along.

the stadium courts tomorrow:

John Van Ryn, United States, vs. Jack Crawford, Australia.

Frank Hunter, United States, vs. Jean Bousquet, France.

Christian Bousquet, France, vs. Christian Bousquet, France.

Frank Hunter, United States, vs. Henri Cochet, France.

RECORD ROUND

Christian Bousquet defeated H. H. Hyde, 7-5, 6-1, 4-6, 6-2.

John Van Ryn defeated Sadakazu Oda, 6-4, 6-2, 1-6, 6-4.

Henry W. Austin defeated Jack Wright, 3-6, 6-4, 6-2, 6-5, 6-3.

John Van Ryn defeated Edw. T. Hornsby, 6-2, 6-4, 6-4.

Frank Hunter defeated Julius Solismon, 6-3, 6-2, 7-5.

De Buzet defeated Percy Kynaston, 6-3, 6-2, 6-4.

Frank Hunter defeated Edward Fehlbauer, 7-5, 6-3, 6-5, 6-3.

Harris Coggeshall defeated Herbert L. Bousquet, 6-3, 6-2, 6-4.

Gregory Mangin defeated R. O. Cummings, 6-3, 6-2, 6-4.

Phil Mercer defeated Wilmer Allison, 6-3, 6-2, 6-4.

Henry Cochet defeated Wilbur Coen, 6-3, 6-2, 6-4.

Jack Crawford defeated Ben Gorchakoff, 6-3, 6-2, 6-4.

John Van Ryn defeated Albert B. Smith, 6-3, 6-2, 6-4.

Walter Hays defeated Morris M. Mundy, 6-3, 6-2, 6-4.

Walter Hays defeated Robert E. Stanley, 6-3, 6-2, 6-4.

Walter Hays defeated Robert E. Stanley, 6-3, 6-2, 6-4.

Walter Hays defeated Robert E. Stanley, 6-3, 6-2, 6-4.

Walter Hays defeated Robert E. Stanley, 6-3, 6-2, 6-4.

Walter Hays defeated Robert E. Stanley, 6-3, 6-2, 6-4.

## CITY HIGH SCHOOLS START 1928 FOOTBALL PRACTICE

All over the city yesterday, laid answer the call of the gridiron. The seven high schools composing the City League had their football baptism yesterday afternoon when record first day turnouts were registered at each institution.

Hollywood High, last year's champs, had a comparatively weak turnout. Coach Vic Kelly figures that he is in for a tough season, claiming only four veterans back, headed by Capt. Laurie Vejar, the three others are Thayer Rogers, guard; Les Gaunt, tackle; and Chuck Griffin, tackle. Johnny Hillman, full, and Ernie Oswald, end, failed to show up for first-day practice.

More than ninety prospective griders greeted Coach Pop Bates at Lincoln High. Bates and the three other Lincoln coaches, Van Pelt, Parker and Livernash, plan to get this mammoth squad in condition in record time by having them turn out the Lincoln field over via the pick-and-shovel route.

First-squad men will be picked from a long list headed by Capt. Vitale, Eddie Mesa, Tom Dill, Joe Bas, Leo Sveda, Dave Myrmio, Red Schaffer, Ted Brown, Osborne, Kishnik, Ryan, Sasse, Berretill, Bruce, Hecker, and Lank.

The heaviest squad in years made its appearance at Poly High yesterday. The backfield men look to average around 170, while the lines-

men look larger. "Capt. Jimmy Young, McBride, Kilford, Barthel, Tanner, Lavollette, La Gasse and Abascal are out for backfield positions, while Strutzel, Little, Kleffel, Ryan, Brill, Hill, Greenbaum and Lee Coster top the linemen.

Out at L. A. High, although four letter men returned, Coach Dave Riddlerhoff figures on having a tough team. Among others that showed up at the Roman institution yesterday were Capt. Jimmy Owens, Claybourne King, Dick Chapman and Red

Although only one letter man is back at Manual Arts Coach Blewitt will have a tough team ready by the time the first game rolls around. Capt. Hughie Towle will again play at half this season. Elmer Johnson will probably complete the backfield. The linemen are unknown at present.

Judging from yesterday's showing at Jefferson High, Coach Jim Purcell will have a light but fast eleven this year. Not much weight but plenty of speed will be the watchword of the Desdemona squad.

Coach Frank Hess of Franklin High has a tough job ahead of him. It seems. The Printer's mentor practically has to rebuild his entire squad as only two veterans, Heiber and Mead, are expected to return. Nevertheless a good sized squad was out getting used to the feel of a football again.

## Call Awaited at Redlands

REDLANDS, Sept. 11.—The University of Redlands football men will be called out for first practice next Monday, but the coaches are not hopeful of having many men on the field until Wednesday for school sessions begin that day.

The varsity team will probably be coached this year by Frank Trine and Asbel Cunningham, with C. A. Cushman in charge of the freshmen and E. R. Davis, new physical education director, assisting.

The varsity outlook is more promising than in some years for there are seven letter men returning and some excellent material for the last year's freshman team which lost but one game, that to Pomona by just 2 points.

Among the men lost were Hubert Smith, captain and tackle last year; Bunch, center; Kenney Smith, tackle, and Bell, end.

The coaches have Bolen Davis, captain and guard back, also Loper, Niedermeier, Fox and Rowe in the backfield; Howard Smith and Parquhar in the line. There then is also Alden Smith, Collins, Yamamoto, Hendricks and Sargent.

## UTICA BATTLER LOSES VERDICT

(Continued from First Page)

tured five, Graham three and two were even. There were no knockouts, but in the fourth La Barba sent Graham dangling over the middle strand of the ropes with a well-directed right to the face as the banty king endeavored to duck out of harm's way.

GRAHAM BAFLED

La Barba opened with a fast attack right at the start in the first round, and although Graham gained his biggest margin of the fight in the second round with lefts and rights to the head La Barba persisted and came in even faster in the third session.

Graham had a slight edge in this round, but from then on La Barba's incisive hooks to the face, his sharp raps to the body at close quarters and his ability to outbull Graham had the bantamweight king stumped.

Graham wanted La Barba to stand back and counterpunch, but La Barba declined. The fact that La Barba could change from a style for which he is famous to a more aggressive and outfigured strategically the champion was forced to literally take it on the leg.

After the third Graham won only one round—the seventh—although he held the ninth even. La Barba opened up a cut under Graham's left eye in the fourth, also the period in which he smashed a terrific left hook to the champ's right eye. Altogether that was Graham's worst session and La Barba's best.

The margin of victory in other rounds for La Barba, while decisive, was not as large.

TORRES WINNER

Another very popular decision with the house was the one Johnny Torres took over Bushy's brother, Frankie, in the six-round bout. Torres won decisively and had the younger Graham reeling and in bad shape in both the third and sixth rounds with stiff pokes to the head. Frankie did not go over well with the populace and his sore-head tactics when the decision went against him were booed as follows:

Joe Salas earned a decision in six rounds over Kid Ponce in the semi-final.

Jesse D. Hobson defeated Johnny Blair in four rounds.

Jimmy Valenti defeated Bud Baker in four rounds.

Bear Football Team Selected

BERKELEY, Sept. 11. (AP)—Headed by Capt. Irvine Phillips of Salinas, the seventy-five men that will compose the 1928 football varsity of the University of California, were announced today by Coach C. M. "Nibs" Price.

The number is the largest in the history of the school, and the men are divided into the first, second and third squads and the reserves. Price together with Dr. Albert Boles, line coach, will have charge of the first string men, Clint Evans will handle the second string, and Dan McMillan will take charge of the third team.

When the team goes into its first practice session on the 15th inst., the men that will compose the first eleven were announced by Price as: Phillips and Russ Avery of San Francisco, ends; Steve Bancroft of Fresno, and Frank Fitz of Woodland, tackles; Harry Gill of Orcutt, and Louis Pitto of Lodi, guards; Roy Riegels of Oakland, center; Lee Eisan of San Francisco, quarterback; Ben Lom of San Francisco, and Stan Barr of San Francisco, halfbacks; and Charles Schmidt of Modesto, fullback.

HECTOR DEFEATS DIXON

PORTLAND (Or.) Sept. 11. (AP)—Mike Hector, Los Angeles middleweight, took a ten-round decision by a wide margin over Hector Dixon, Portland, here tonight. Hector won eight of the ten rounds.

REILLY WHIPS JACKSON

SANTA ROSA, Sept. 11. (AP)—Jimmy Reilly, Geyserville welterweight, won a ten-round decision over Johnny Jackson, here tonight. In the main event at the fights here tonight.

BIBLE INSTITUTE OF LOS ANGELES

A SCHOOL OF TRAINING FOR CHRISTIAN LEADERSHIP

International, no sectarian bias, all essential Christian training. Courses, 42-52 & 53. 221 E. 1st St., Los Angeles, Cal.

## RIVIERA TOURNAMENT POPULAR

More Than Hundred Stars Sign Up for Invitational Next Week

(Continued from First Page)

chett, Weller Noble, Bill Spaulding, Chester Lyday, E. S. "Eddie" Brown, Stanley Hughes, Willard George, Jimmie Johns, Aubrey Devine, Harry Berda, Bill Jeliffe, C. K. Manhart, H. E. Westbrook, H. A. Bingham, Dwight Hamlin, E. H. Seaver and Jack Gable.

Chief among the junior entries are Harry Eichelberger, Jr., Southern California champion; Jack Mackey and Danny Sangster. For reservations and starting time phone Ben Neal, Trinity 1981, or Capt. William J. Brown, Santa Monica 49458.

O'BRIEN WINS "TIMES" FLAG TOURNAMENT

William S. O'Brien won the monthly golf tournament of the Times Golf Association yesterday at the Westwood public course. The tournament was played under the flag-play rules.

O'Brien scored a 95 with a handicap of 25 gave him a net score of 70. Raymond Ball, president of the association, won second place, 97-24, and J. H. Finn was third, 92-18-74.

KELSO WINS TOURNAMENT AT MONTECITO

E. B. Kelso won the match play annual, par sweepstakes at the Montecito Country Club Sunday with an 83, even with par. Four golfers tied for second place as follows: C. McDaniel, 85, one down to par; E. K. Parrott, 81, one down to par; E. D. Park, 84, one down and L. Washburn, 82, one down.

Paul Scott writes that a large entry turned out for the tournament, but that many had to cut their games short due to a windstorm which came up suddenly in the afternoon.

ROBINSON SETS RECORD OVER SUNSET FIELDS

Ted Robinson, a member of El Caballero interclub team and one of the most promising of rising tournament golfers in the South, set a new course record for the Sunset Fields No. 1 course Admission Day. He was one over par going out, but came back in par to snare the record.

The leading scores were as follows: Ted Robinson, 72; O. P. Austin, 74; Joe Ray, 75; Col. J. J. Tor, 77; C. L. Albright, 79; J. H. Van, 80; W. J. Holter, 81; George Wolford, 81; H. O. Henry, 82; C. Nason, 83; F. S. Smith, 83; W. W. Marsh, 83; L. M. Buck, 84; D. L. Smith, 84 and F. S. Smith Jr., 84.

NEW FOX HILLS COURSE OPENS SATURDAY

The new "East" course of the Fox Hills Country Club will be officially opened Saturday at 1 o'clock when President Al Comey smashes the first ball.

Acorns Trim Mission Gang

SAN FRANCISCO, Sept. 11. (AP)—The Oaks hit in the pinches today and converted thirteen safeties into an 8-0 victory over the Missions. George Boehler, Oakland twirler, was touched for fifteen hits but they were scattered. Lombardi, young Oak catcher, contributed a homer, three bagger and single in as many times at bat. Score:

OAKLAND: 8-0. Mission: 0-8.

## HEALTHY DET

### ADVICE

By Frank M. Coy

gistic measure for maintaining and preserving our best health.

**QUESTIONS AND ANSWERS**

Question: Mrs. D. R. asks: "Can you tell me whether children born of older parents are more intelligent than those born of young parents?"

Answer: The influence of the age of the parent upon the child has never been accurately, scientifically determined. Parents with active brains, regardless of their ages, usually have intelligent children. It is supposed that younger parents have children that are stronger physically, and older parents have children that are stronger mentally, although this belief is not recognized by science.

Q: Alice J. asks: "Do the food colorings, sold in paste and liquid form for household use, contain anything that would be harmful to one's health?"

A: The various color extracts now on the market are made mostly from harmless vegetable and other color extracts, supplemented by a number of color fast, or aniline, dyes, approved by the government after painstaking investigation and analysis. As long as their use is solely to enhance the enjoyment of foods and not to conceal their inferiority, I do not consider these colorings particularly harmful, especially since they are used in such limited quantities.

Q: W. K. asks: "What causes pellagra?"

A: Pellagra is a disorder caused partly by the absence of organic minerals in your food, and partly because of the acidosis produced from using an excess of over-refined starch—taking for example, such dehydrated food as cornmeal from which the hull has been entirely removed. My article "Healthful Menu" gives a well-balanced diet for those suffering from disorders from dietary errors. If you will send me a request for this article, addressing me in care of this newspaper and enclosing a large, self-addressed, stamped envelope, I will be glad to send it.

Q: U. V. asks: "What am I to do for a stubborn case of St. Vitus dance of ten years' standing? I am a young man in the twenties."

A: You should take a fruit juice fast for at least ten days, which should be followed by a carefully planned diet in order to cure your ailment. Also, take systematic exercises, using only those exercises which require slow movements and where it is necessary to use increased strength each day.

### Fruit Exchange Manager Off on Market Visits

General Manager Desell of the California Fruit Growers' Exchange, accompanied by Orange Sales Manager Dana C. King, left Los Angeles last night for the annual visit to the markets and sales meeting of the big co-operative marketing organization which handles 75 per cent of California's citrus fruit.

The first stop will be San Francisco where district sales managers from Pacific Coast, Northwest and Western Canada offices will convene this week. B. B. Wallace, assistant orange sales manager, and J. O. Cook, Jr., assistant advertising manager, will also attend the San Francisco meeting.

Mr. Desell and Mr. King will proceed to Minneapolis, Chicago, Boston, New York and Fort Worth where the representatives from other sales divisions will meet with them.

### The LAST WORD

By ALMA WHITAKEP

#### JIMMY'S IDEA

Two old to cry. He told the family about it.

"Two old to cry," said father. "But I sure is your idea, Jimmy. I'll ask my lawyer about it."

It was then that Uncle Ed spoke up. Uncle Ed had thought about copyrights. And he had Jimmy's original drawing all nicely copyrighted. Uncle Ed accompanied Jimmy back to the firm. Uncle was nice and big and authoritative—it didn't take long for him to convince that firm that someone had perpetrated a bit of dirty work on a youngster.

When the matter was cleared up, it appeared that one of their employees had "appropriated" Jimmy's idea and claimed it for his own. The firm was most contrite and agreed to settle the matter out of court for \$1000.

Now Jimmy is firmly convinced that commercial art with a special sideline of original ideas for names of new products, is his life work. And the family no longer treats Jimmy's talents with indifference. In fact, they are taking Jimmy almost as seriously as he takes himself these days.

One thing Jimmy is studying very intently is the copyright law for the protection of brilliant original ideas, and just how to go about it. While big responsible firms would not be officially guilty of such tricks, one never knows when a dishonest employee will pop up.

All of which goes to prove that it is most desirable to know the legal side of one's work. It isn't enough just to concentrate on the job itself. Certain laws are made for the protection of every kind of endeavor, and Uncle Sam always stands ready to assist every citizen with suitable "protection" if he has the sense to make use of it.

## HOUSEHOLD SUGGESTIONS

### Home-Made Breadcrumbs

The meat grinder need not be confined to meat. It makes splendid breadcrumbs. Dry the stale bread in the oven and then put through the grinder. Real economy.

### Fried Bacon

Frying bacon is not a hard job, but it is one that demands attention. It will never cook evenly if allowed to cook alone, and the first thing you know parts of it are blackened. Stick to your job; it is not a long one.

### The Pan of Bread

When putting bread in the oven to bake be careful that the pan does not touch the sides of the oven. This will result in unshapely loaves, as the bread will bake unevenly.

### The Day Before

Frequently a great deal of Sunday's dinner can be prepared on Saturday, to take away some of the stress of going to church and having a nice Sunday dinner at the same time. Many people have their big roast dinner on Saturday night and have warm-over or picnic meals Sunday and thus solve this problem.

### Passed Along

Allow at least twenty inches from plate to plate when setting guests. Fresh lemon peel rubbed on the table forks and knives will remove all odor.

No household machinery will run well without an occasional greasing and oiling.

Keep your eye on the drip pan or drain under the refrigerator, for roaches are very fond of such places.

A few drops of turpentine in the water when washing white silk stockings will keep them from turning yellow.

## KIMMERLE REARREST DEFERRED

Sheriff's Office to Wait Appeal Outcome Despite Judge O'Donnell's Ruling

Despite the legal opinion made public yesterday by Judge O'Donnell of Solano county, in which he held that H. J. Kimmerle was illegally paroled from the County Jail, and in fact is an "escaped" prisoner, Under Sheriff Blackman yesterday announced that Kimmerle will not be rearrested until further orders from the court.

This decision is based on the fact that Judge O'Donnell previously had issued a stay of execution in the matter until the status of the case settled definitely.

Kimmerle was sentenced to two years in the County Jail for an assault on Arthur Loeb during an argument over affairs of the Julian Petroleum Corporation. After serving five days, Kimmerle was released on a parole signed by Dist. Atty. Keyes and Chief of Police Davis. Sheriff Traeger did not sign.

In his written opinion Judge O'Donnell charged that the parole board never had properly organized itself as a board of parole commissioners and had not held an official meeting to discuss the matter of Kimmerle's parole, and hence it is invalid and the status of Kimmerle at this time is that of an escapee from the County Jail.

County Counsel Mattison and Deputy Counsel Prichard have been asked to prepare an opinion.

## Women of Refinement will not be tanned or freckled this winter!

Already they are asking "where can I have this devastating sunburn removed quickly, safely?" For answer, seek the studio of Mme. Bergeron, famous skin specialist. She offers you a wonderful Bleaching treatment, that whitens the most sensitive skin without the slightest irritation. Just one such treatment is usually sufficient to whiten face, neck and shoulders after an all-summer tanning. These treatments do not peel the skin. Instead they draw out the tan, leaving the skin fresh, clear and firm.

Bleaching Treatment \$5.00

### CHEF WYMAN'S Suggestions for TOMORROW'S MENU

Every Tuesday and Friday at 3 o'clock Mrs. A. L. Wyman will conduct a free class and demonstration of good cooking in the lecture room of the Southwest Building, 130 South Broadway.

**Breakfast**  
Sliced Fresh Figs  
Scrambled Eggs with CROUTONS  
Toasted Milk  
Quince Preserves  
Coffee

**Luncheon**  
Lamb Hash with Peppers  
Lettuce and Tomatoes  
Peach Short Cakes  
Buttermilk

**Dinner**  
Purée of Green Peas  
Stuffed Celery  
Veal Chop  
Browned Potato Balls  
Stewed Okra  
Neapolitan Salad  
Diced Cream Pie  
Iced Coffee

**LAMB HASH WITH GREEN PEPPERS**  
Heat four tablespoonfuls of shortening in a sauce pan add one chopped onion and two seeded and chopped green peppers, simmer slowly until the onion and peppers are soft, add three cupfuls of cold cooked lamb in small dice, one and one-half cupfuls of chopped cold boiled potatoes, three tablespoonfuls of finely chopped celery, one tablespoonful of finely chopped parsley, one cupful of beef stock, two pintettes, cut in small dice, and a seasoning of salt and pepper. Cover the pan, set in the oven and allow to cook slowly for three-quarters of an hour, turn out on a hot platter, sprinkle with paprika and garnish with points to taste.

**STUFFED CELERY**  
Select twelve white stalks of celery, and cut each stalk into three equal parts.

through a sieve, add one cupful of stock, and stir in two teaspoonfuls of butter, rubbed to a smooth paste with two teaspoonfuls of flour, stir and cook ten minutes, season with salt and paprika and serve.

Mrs. Wyman does not reply to letters, but requests for recipes are answered in the department. PRACTICAL RECIPES, published every Tuesday. (All rights to recipes reserved by A. L. Wyman.)

### Confectionery Offers Petition in Bankruptcy

Petitia Confectionery, which conducts a confectionery and luncheon establishment at 615 South Broadway, and the Elite Catering Company associated corporation, yesterday filed voluntary petitions in bankruptcy in the United States District Court.

The two companies stated they will take advantage of the statutory right to file a schedule of liabilities and assets within ten days.

### HOSPITAL CHILDREN TO VISIT CATALINA

Eighty children from the Orthopedic Hospital School will be guests of the Catalina Island Company on an all-day outing to the island on Friday. The little wards of the hospital will be supervised on the trip by workers, doctors and nurses of the hospital.

### Autumn Fashion Promenade of Mannequins Thursday Mary Louise

During Luncheon, By Sailer's, Inc. & Willard H. Co., Inc.

For a delicious Luncheon or Tea, Downtown, visit the Mary Louise Security Bank Bldg. 7th at Grand opposite J. W. Robinson Co. Elevator Floor Barker Bros. 7th at Flower

## BULLOCK'S STORES FOR MEN

### New Fall Suits in Chestnut Browns and French Blue-grays

EACH of the two leading color popularities at the start of Fall—Chestnut Brown and French Blue-gray—is light-hearted and gay in the Autumnal spirit. Each has a wide latitude of becomingness for the range of blonde, brunette and auburn types of men.

Two and three buttoning sacks. New notch or peak lapels. The right trouser width. Proper sleeve shape. Exacting angle of shoulder. Fabrics soft draping and subdued in pattern—or cloths with patterns more pronounced, and for the man who is active and requires a fabric to withstand severe usage. But all genteel—all made to the exacting specifications of BULLOCK'S. Excellent—satisfying—for men who are paying more attention to their appearance.

... ..

### Llama Cloth California Top-Coats

A new feature in California top-coats for men this season, and exclusively with BULLOCK'S, is the new Llama cloth—soft, warm, light, luxurious, made of the wool of the black faced llama of South America. Finer, softer, better looking, dressier, than camel's hair—and when dyed, or patterned, expresses a deep toned richness of luxury. Very serviceable! Patch pockets. Single breasted. Buttoning through front. Medium length. Quarter lined. Blues, sands, checks, stripes. Silk quarter-lined. A beautiful California top-coat for business and lounge hours.

... ..

### "DARTMOUTH" Last in "Nu-Roy" SHOES

You'll find this high quality shoe, styled in dignified good-taste is strong and sound and sinewy. Elegant workmanship. An oxford—medium weight sole, in black or tan calf—that fits the arch snugly and helps, not hinders, foot-going.

# Kelley Hurls Charge of Being "Framed" as He Goes on Stand to Deny Killing Mrs.

## FIVE-YEAR LOVE STORY DETAILED

Testimony of Husband and Maid Attacked

State Bores Into Account of Fatal Tryst

Large Crowd Fights to Get Into Courtroom

(Illustration on picture page)  
Charges that the police and the District Attorney's office are trying to "frame" him were hurled from the witness stand in Superior Judge Brown's court yesterday afternoon by Leo P. Kelley, butcher boy, on trial for the murder of Mrs. Myrtle Melius, society woman.

"They are trying to frame me; they haven't told all the truth!" cried Kelley, as Dep. Dist. Atty. Costello began a cutting cross-examination of the defendant, who had gone on the stand in his own defense.

"Who do you think hasn't told the truth?" demanded the prosecutor.

"Frank Melius hasn't told the truth, and Maggie Ferris and Officer Arthur B. Smith," replied Kelley, his voice sharpened with nervous tension.

"Where didn't they tell the truth?" again questioned Costello.

MENTIONS HUSBAND

Kelley declared in answer that Melius was not frank about the physical condition of his wife's heart and he declared that "anybody in the courtroom" could tell the testimony of Maggie Ferris, the negro maid in the Melius house, was influenced.

"She was forced to testify that way," Kelley asserted.

Kelley's testimony was given as crowds fought to gain entrance to the courtroom. The majority were women and, despite barriers erected in the corridors, squads of balliffs were forced to use ropes to keep the inquisitive women back. Long lines stood all day at the entrances to the barriers.

Sober as was the story Kelley related from the stand—the history of five years of illicit relations with Mrs. Melius, of liquor and parties—he maintained throughout a certain composure and his answers on cross-examination snapped back at the prosecutor.

JUSTIFIES STORY

"I wanted to protect Mrs. Melius's name, but you have forced me to tell everything," is the way he justified his recital from the stand.

He repeated the same assertion several times as his cross-examination proceeded.

At another point, Costello made reference to a woman heretofore unmentioned in the case.

"I absolutely refuse to bring anyone else into the case," Kelley replied, he declined to answer the question.

Coated on this point by the prosecutor, the witness declared he refused to answer and stood his ground.

Kelley will probably be on the witness stand throughout today's court session. He faces a two-hour cross-examination, and will spend the afternoon on re-direct testimony, according to prosecution and defense counsel at the close of the session yesterday. Court will reconvene at 10 a.m. today.

WHAT HE SAID

The defendant was the first witness called by the defense and was on the witness stand all of the morning. Sumner, who had the outstanding points of his testimony were as follows:

(1) That he and Mrs. Melius lived two weeks before the murder upstairs shortly after his arrival at the Melius home on the day of the slaying, and after having several drinks enjoyed in the argument about Mrs. Melius's asserted overindulgence in intoxicants, during which Mrs. Melius became "hysterical" and began to cry, he heard her mouth to keep her cries from the ears of neighbors. During this tussle, Kelley testified the woman lay upon the bed, evidently having been cut by a ring he wore.

(2) They went into the maid's bedroom on the lower floor and stayed for more than two hours, again drinking. Kelley said he used his shirt to wipe blood from Mrs. Melius' lip, which again started to bleed.

(3) When Mrs. Melius left the maid's room to go upstairs and change her clothes she fell on the stairs and Kelley found her clinging to the banister. He helped her to the bedroom upstairs.

HEARD BELL RING

(4) When Kelley prepared to leave at what he thought was about 2:30 p.m., he heard a doorbell ring when he was halfway downstairs. Mrs. Melius at this point called to him, "Wait a minute until I see who it is," and a moment later, after looking out a back upstairs window, screamed: "It's him, for—take me out of here!"

(5) Kelley hid in a closet in the maid's room and soon after heard Mrs. Melius yell, "Frank!" That was all he heard until the officers dragged him out of the closet, Kelley declared.

Much of Kelley's testimony from the nature of it is unprintable, but he told his story in a clear voice and seemed but little perturbed. On one or two occasions he even broke into a smile over clashes between opposing counsel.

Under questioning by Defense Attorney Arthur B. Smith, Kelley began his story from the time he met Mrs. Melius while working in a meat market at Wilshire and Western avenues in January, 1923. He saw her nearly every day and practically every Sunday since, he declared.

EGYPTIAN PARTIES

"Did you go with her to any so-called Egyptian parties since January, 1923?" asked the defense counsel.

"How were the women clothed at these parties?" continued the lawyer.

Kelley never answered the question as Judge Brown sustained a hasty objection interposed by Costello.

## ACTRESS'S ANGEL SOUGHT FOR HERE

Police Wait Word of Baptist Official's Indictment

Hunt for Second Protege in Hollywood Unavailing

Chaperon Denies Contacting Second Film Aspirant

Preparations for an exhaustive search throughout Southern California for Clinton S. Carnes, missing treasurer of the Southern Baptist Home Mission Board, were held in abeyance last night while police and sheriff's deputies awaited official word from Atlanta, where Carnes was indicted on a charge of embezzling \$60,000 of the mission's funds.

Another motion-picture protege of Carnes entered into the case yesterday when a private detective agency, said to have been retained by the Baptist mission, started search for Miss Lois Griffin of Hesperville, Ga., who was revealed in Carnes' private file as a beneficiary of his apparent ambition to produce a motion-picture star.

Mrs. Louise Pope, who is here chaperoning Miss Sonia Nordlie, also a protege of Carnes, yesterday day denied having heard of Miss Griffin. Dispatches from Georgia declared Miss Griffin came to California with Mrs. Pope and Miss Nordlie twenty-two months ago.

CLAW FOUND

Carnes' generosity to the two motion-picture aspirants and their chaperon was brought to light yesterday when Frank E. Fenchel, head of the Merchants and Jobbers' Credit Bureau, turned over to Detective Lieutenant Allen of the missing-persons bureau, a letter from an Atlanta man seeking Carnes, and in which the presence of Mrs. Pope and Miss Nordlie in Hollywood was revealed.

The letter, which was sent to Mr. Fenchel by Len Romer, head of the Automatic Car Lock Company of the southern city, also revealed that Carnes was the backer of that concern and that his disappearance had apparently inconvenienced the organization.

"The last seen of Carnes was when he appeared at the railroad station at a time of day when no train excepting one to California was due to depart," the letter said in part.

The writer then revealed Carnes' interest in his proteges and expressed an opinion that he would visit them.

ONLY MONEY INTEREST

Carnes' interest in the young women was declared by Thomas R. Scott, receiver for Carnes' properties, to have been financial only, according to records found in Carnes' office.

During the twenty-two months he sponsored the girls and their chaperon he sent Miss Nordlie \$721.65; Miss Griffin, \$613.81; and Mrs. Pope, \$504.44, as a result of the contract entered into between the quartet entitling him to participate in the future earnings of the two girls. The contract was found among his files, dispatches said.

Following Carnes' disappearance August 15, last, Scott was quoted as saying, he received an appeal from Mrs. Pope for funds. The receiver wired her, he said, that Carnes had disappeared and that no more money would be forthcoming.

Although expressing a desire to return to Atlanta for a visit, where he said he intends to always maintain her permanent home, Mrs. Pope stated there are no changes in their Hollywood plans.

Efforts to trace Miss Griffin through casting offices yesterday, under her true name, were futile.

Miss Griffin, according to dispatches from Hesperville quoting her mother, was an over-all-factory worker, whose mother her mother labored by side.

MOTHER'S STORY

The thespian spark, the mother said, flamed when Lois starred in a play given by the mill. She later went to New York with Mrs. Pope, and subsequently met Carnes, where the contract was made which allowed him to participate in her earnings in turn for his financial aid in her training.

Her mother added that Miss Griffin is "now stranded in Hollywood since Mr. Carnes's financial assistance has been withdrawn."

Carnes' peculation under the eyes of creditors and other church officials is said to be nearly \$100,000. A reward for his apprehension has been offered by the United States Fidelity and Bonding Company of Baltimore, dispatches said.

A speech appeal for funds (temporarily) finance the mission board has been issued and checks in answer to it have already been received, board officials announced yesterday in Atlanta.

U. S. C. GETS CHARTER OF FRATERNITY

Phi Beta Kappa Meeting Awards Honor Indorsed by Chapters of West

Telegraphic announcement was received yesterday that at the convention of Phi Beta Kappa in session at Delaware, O., a charter of the national scholastic fraternity has been granted to the University of Southern California.

This brings to the local institution the highest academic recognition and the oldest scholastic fraternity in the United States.

The application of University of Southern California for a charter of Phi Beta Kappa previously had received the indorsement of the Phi Beta Kappa Alumni in Southern California, the Phi Beta Kappa Alumni in San Diego and eight chapters of the western district.

Ground Broken for Synagogue of Beth Israel

Ground was broken yesterday for the new synagogue and educational center of the Congregation Beth Israel, one of the oldest Hebrew congregations in Los Angeles, at 418 Custer avenue, opposite the Custer Avenue School. The congregation has been worshipping at the synagogue at 227 North Olive street since 1900.

The new building will cost \$150,000 and will be not only a place of worship for more than 500 persons but will be an educational and recreational center as well. Rabbi J. David Esig is in charge of the congregation.

The building work is under the direction of William Raab, president of the congregation; Joseph Kugler, vice-president; H. Moore, chairman of the building committee; A. Lutz, chairman of ways and means, and Charles Beaver, chairman of finances.

## CARNES SEARCH MARKING TIME

Police Wait Word of Baptist Official's Indictment

## NATIONAL PISTOL CHAMPIONS

Los Angeles Team Captures Trophy

Crack Shots of Police Force  
Left to right—R. J. Nowka, C. E. Ward, Lieut. J. A. Bartley. Front—Chief of Police Davis.

THE champion police pistol team of the United States will arrive in Los Angeles tomorrow, and what is perhaps more interesting to citizens of Los Angeles, that team is composed of Chief of Police Davis, Detective-Lieutenant Bartley and Patrolmen Ward and Nowka of the Los Angeles Police Department.

With them the members of the team are bringing a huge silver cup, which last year was carried away by the crack shots of the Portland (Or.) police department, and which was the prize for which teams from a dozen other cities strove for at the national meet at Camp Perry, O., this year. It was intimated that the champions have numerous individual trophies also.

This was the second year that the Los Angeles department was represented. Last year Chief Davis and his team finished in second place.

VETERANS WILL TAKE CITY

Famous First Division Ordered to Advance on Los Angeles Beginning October 18

Los Angeles next month will entertain the largest number of notable World War veterans ever assembled on the Pacific Coast. It was announced by Col. Harcourt Hervey, commanding officer of "Los Angeles Own," the One Hundred and Sixtieth Infantry, California National Guard.

The famous First Division of the American Expeditionary Force is under orders to advance upon Los Angeles for the tenth annual reunion of the Society of the First Division.

These orders, selecting Los Angeles as convention city for the great "ten-year after" gathering of the First Division, have been issued at Washington by Maj.-Gen. Charles P. Summerall, chief of staff of the United States Army, as president of the society of the First Division. Col. Hervey, who served on Gen. Summerall's staff during the World War has been appointed chairman of the reunion committee with headquarters here.

Every member among the 10,000 veterans of "the first to go and last to return," America's immortal unit of the American Expeditionary Force, has been requested by Gen. Summerall to come to Los Angeles October 18, 19, 20 and 21. Gen. Pershing is expected to be guest of honor.

Elaborate program of entertainment is scheduled. The happy days of Cantigny, Soissons, Argonne, Gondrecourt, Toul and Coblenz will be revived. Life in the "Homes 40, Chevaux 8" will be recalled.

The Tenth National Reunion committee consists of the following Los Angeles leaders:

General chairman, Col. Hervey; first vice-chairman, Adolph N. Sutor; second vice-chairman, Louis J. Capena; treasurer, Arthur King; secretary, Clarence N. Wakefield.

The Alexandria has been made general headquarters. Subsidary committees will be announced by Air Force Thursday.

Airplane Motor Exhibit Draws Eyes of Crowd

A dozen aviation students busily engaged in disassembling and assembling various types of airplane motors is part of an exhibit that is attracting crowds at the National Air Races. Boys between 16 and 20 years of age seem to be particularly interested.

The student exhibit is being held under the auspices of National Automotive and Electrical School.

Ross McBride, chief instructor, is in charge. He also will be in charge of the true aviation class for boys to be conducted at the school by The Los Angeles Times.

It is stated that approximately eight men are required to get the ground to one man in the air in the servicing of planes, which indicates the feature demand for trained aviation mechanics. The exhibit demonstrates the many requirements and wide scope of knowledge needed for the care and repair of motors and planes.

Officer Saves Coat of Lloyd

The eagle-like eye of Traffic Officer McCarly yesterday prevented

RADIO CHANGES  
GET APPROVALGeneral Public Apparently  
Shaves AccordDr. Dellinger Takes Charge  
of MappingLocal Stations Spread Out  
All Over Dial

BY DR. RALPH L. POWER

The Radio Commission changes, announced yesterday to become effective on Armistice Day, November 11, have been eagerly scanned by broadcasters and the radio public alike.

In a large measure the new frequencies, time divisions and power allotments seem to meet with the approval of everyone except the stations concerned. This was to be expected.

Dr. J. H. Dellinger, chief of the radio section in the Bureau of Standards at Washington, D. C., and a Fellow of the Institute of Radio Engineers, has been loaned to the Radio Commission to assist in plotting out the changes.

Dr. Dellinger's standing as a scientist augurs well for the commission, which hitherto has often been poorly advised.

**WIDER DIAL RANGE**  
The changes have certainly spread out the local stations all over the dial and there is not the congestion on the lower end. On the lower dial readings the stations average 50 to 75 kilocycles apart. This means that practically every receiver will stand more than a good chance of tuning stations in and out with comparative ease.

Most sets will apparently have difficulty in getting KPO, San Francisco, and KFRD, San Diego. The 10 kilocycles that separate the two stations will mean that sets must be particularly selective to separate them, with the probability that Los Angeles and Southern California set owners will have to be content with hearing KFRD to the exclusion of KPO.

**LONG DISTANCE BETTER**  
The same situation holds true between KGO and two local stations that will divide time—KNBC, Los Angeles, and KRLW, Burbank. The separation of 10 kilocycles will cause difficulty in separating the San Francisco and local stations, so that dialers will not be able to hear KGO except those with especially good sets.

The changes have well taken care of the two 5000 watters, KFI and KNX. The nearest locals to these broadcasters average 60 kilocycles away on either side of the dial, although, of course, it was necessary to put some out of town sets in between.

When the new arrangements become effective on November 11, the dial will find that of the twenty stations in and around Los Angeles, half will be above 50 on the dial and the other half below the 50 mark. It looks as though local reception will be materially aided and the chances are that DX programs will be heard more frequently.

**HOOVER BIOGRAPHY DISCUSSED ON RADIO**

The regular weekly Public Library talk tomorrow over KFI will be given at 2:30 p.m. by Miss Reba Wright, librarian of the Robert Louis Stevenson branch library on Whittier Boulevard. In the list of current book reviews she will include a biography of Herbert Hoover.

**RADIO DANCE TO BE SHOW FEATURE**  
WASHINGTON, Sept. 11. (Exclusive)—The Wisconsin Radio Trade Association which will conduct a radio show in Milwaukee from October 2 to 7 has been granted authority to broadcast during that period by the Federal Radio Commission. Their station will have the call letters KOIE and will broadcast with a power of 7½ watts on 1600 kilocycle (160 meters).

During the course of the radio show the association will put on a radio dance for the public. The station will be set up in the Milwaukee Auditorium and a program of dance music will be broadcast in the building which the dancers will pick up through earphones connected with crystal sets.

**ACTION DEFERRED**  
Consideration of the proposed improvement in streets in the Hawaiian avenue and J street improvement district was yesterday postponed by the City Council until October 2.

**To-night at 7:30 P.M.**

**"Yellow Cab Gayeties"**

**KFI KPO**

**Dunkirk 50-50**

**"Yours for the best ride in town"**

**Compare your set with a SULLIVORE RADIO**

**Listen in on KNRC Every Evening From 6 to 6:30**  
On Perfect Eyesight Without Glasses  
Traveling and Music. A great program.

## STAR REMAINS WITH VITAPHONE

Bessie Love Comes Back to Screen—Signs With M.-G.-M.;  
Seventeen-Year-Old Extra Gets Lead With Lasky;  
Wesley Ruggles Stays On With Universal

BY GRACE KINGSLEY

Pauline Frederick yesterday signed a two-year contract with Warner Brothers, according to word received from Darryl Zanuck. This announcement is in line with a prophecy made in this column some time ago, when it was known that she was to play in "On Trial."

The noted actress will appear in all-talking Vitaphone features, according to the statement. Several well-known plays are now under consideration for her and one in particular is being negotiated for. Announcement of this will be made within a few days. Only the finest plays are to serve Miss Frederick as vehicles, we understand.

In the meantime, six talking pictures are actually in filming this week at Warner Brothers studio, with the addition of three new units to the working schedule. These are "Queen of the Night Club," with "Texas Guinan," "The Greyhound Limited," starring Monte Blue, and "Fanny Brice," an all-star production; in addition to "Stark Mad," "The Redemptive Sin" and "One Stolen Night."

Charles Hill Mailes and Harry Todd have been signed for important roles in "One Stolen Night."

**BESSIE LOVE PLAYS**

**LEAD IN M.-G.-M. FILM**

Having tried the dramatic stage as well as vaudeville during nearly five months away from the studios, Bessie Love is coming back to the screen and bringing all of her new accomplishments with her.

Miss Love has been signed by Metro-Goldwyn-Mayer to play the lead in "The Broadway Melody," the original story by Edmund Goulding, with the New York stage production as a back-

ground. Harry Beaumont is to direct, and the diminutive Bessie will have opportunity to talk, sing, dance and play her ukulele in addition to her stage work.

The experience gained as the stage star of "Burlesque" on the Coast and in playing three-day tent productions and yesterday Coast Theater presentations is destined to make Bessie a very versatile and busy little actress in "The Broken Melody."

But this isn't all. It appears that negotiations are on to sign Miss Love on a long-term contract, especially in view of her stage successes of late. She will, in case the deal is signed, appear in all-talking pictures made by M.-G.-M.

**Newest Lasky Cinderella**  
Another Cinderella appeared in pictures. She is Gladys Belmont, 17-year-old screen extra, who began her career in pictures last February, has been selected to play the role of the young girl in the picture, "The Young Girl," directed by Victor Sjöström.

Immediately following her selection for the role, Miss Belmont was taken to the Canyon de Chelly in Northeastern Arizona. The company, headed by Richard Dix, arrived in the Navajo Indian country last week to begin the filming of this powerful tale of the red men. Victor Sjöström is directing.

The picture will bring to the screen for its first time in natural color the brilliant hues of Indian settings and costumes.

**Wesley Ruggles Continues**  
Wesley Ruggles will continue to make pictures for Universal for another six months at least, that company's option on the director is being exercised immediately following his latest picture, "Port of Dreams," starring Mary Philbin.

The director is already at work in collaboration with Paul Schofield, on another dramatic story to serve as a future vehicle for Miss Philbin and her leading man, Fred MacKay, who is one of Ruggles' discoveries.

**Fox Signs Two Players**  
Two no less able actors than Clyde Cook and Albert Conti were signed yesterday by Fox Films for Victor McLaglen's next talking picture, "Life Is a Gamble." Jack Blystone will direct.

The comedies Cook's services seem to be always in demand. This is the fifth picture in which he has appeared during the last few months.

**Lillian Rosina in It**  
If Lillian Rosina is able to make up other people for all sorts of characters, she should be able to make herself up as a spy. So reasoned James Cruze, apparently. At any rate, Cruze has cast Miss Rosina, who is one of the make-up heads of M.-G.-M. studios, as a spy fortune teller in "A Man's Man," William Haines' current M.-G.-M. starring vehicle. Miss

STATE LEADS IN  
ADULT SCHOOLS

Extension Courses Enrolled  
Thousands Last Year

Dr. Woellner Praises Move  
to Study on Cars

Education in Southland  
Held Up as Model

"California leads the world in the adult-educational movement," declared Dr. Frederick P. Woellner, professor of education at the University of California, before the Advertising Club at the Biltmore yesterday in an address in which he praised the newly established commuters' school as one of the most significant steps in modern education.

"The old idea that the mind is necessarily accreted in its development in a person's twenty-fifth year is all nonsense," said Dr. Woellner. "No one ever is too old to learn and the millions of adults in America today who cannot read and write are to be pitied rather than pitied. Moreover, the adult who can read and doesn't read, or who reads only trash is likely to be a poorer example of good citizenship than the illiterate man or woman."

"In education, generally, California, and especially the Southland, is an example for the world to follow," said the speaker. "The extension courses of the University of California last year we had a total enrollment of 18,500, with 300 instructors and 800 classes. The extension courses of the University of Southern California had enrolled 11,800 pupils, with 343 instructors of 583 classes. Soon our Los Angeles night schools will open to thousands of young persons and adults and the new commuters' school promises to become an institution of tremendous value to working men and women."

"The schools of the East and the West and you may be surprised to learn that 80 per cent of the universities in eastern colleges and universities have applied for admission into our big California institutions of learning."

The commuters' school, organized by J. Gustav White, director of education of the T.M.A.A., and sponsored by the Los Angeles County Council for Adult Education, public-school officials, State colleges and other institutions of learning, provide for study courses on all subjects to be taken by our patrons of the "red lines" who will study as they ride. It is planned to introduce the system on the yellow cars later.

**MAN'S DEATH LAID  
TO POISON DRAUGHT**

The body of George Bower, 40 years of age, an oil man residing at 3519 West Seventeenth street, was taken to the county morgue yesterday. According to the police report his widow, Mrs. Ruby Bower, stated that he had been suffering from a nervous breakdown and, yesterday morning, she had found him in convulsions in the kitchen floor. He died before medical aid could be had. He is believed to have taken poison.
